بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

My young friends, I look forward to you as the real makers of Pakistan, do not be exploited and do not be misled. Create amongst yourselves complete unity and solidarity. Set an example of what youth can do. Your main occupation should be in fairness to yourself, to your parents, in fairness to the State, to devote your attention to your studies. If you fritter away your energies now, you will always regret.

The City of Faisalabad

Faisalabad, the Manchester of Pakistan is one of the first planned and systematic cities in the sub continent envisaged by the British Government, after the name of Sir James Lyall. Lyallpur was the first name ascribed to this fertile land of Sandal Bar. Later, the unique bond between Pakistan and Saudi Arabia paved the way to rename the city after the name of His Excellency, King Faisal bin Abdulaziz Al Saud (Late). The City is catering to the needs of more than six million people. Agriculture and industry remains the hallmark of Faisalabad with a powerful and ever developing thrust in these sectors. Faisalabad International Airport, Faisalabad Dry Port and Industrial Zone linked with the Motorway are facilitating this hub of industrial activities. Establishment of new special economic zone under CPEC has further increased the economic importance of the city.

The historical Clock-Tower with Eight Bazars designed after Union Jack, presents a magnificent example of town planning. With the proper infrastructure, road linkages, Faisalabad serves as an example as district, as division and as a city for the developing world. The Faisalabad International cricket and hockey stadiums host international matches. The city has produced great leadership in the fields of politics, commerce, education, health, sports, agriculture, economy, bureaucracy, and biotechnology.

History & Introduction

Government College University Faisalabad has emerged as a leading center of learning and research in a short span of time. The University with its dynamic faculty and innovative syllabi has become a catalyst of intellectual, social and industrial change. It caters to the diverse needs of society by imparting education in almost all the major fields of learning.

The Government College University's journey started as a primary school in 1897 in the present building of Government College for Women, Karkhana Bazar, Faisalabad. It was promoted to High School and Intermediate College in 1905 and 1924 respectively. It was elevated to the degree level in 1933 and postgraduate disciplines were introduced in 1963. The long journey that started with the humble beginning reached its climax when it was granted the status of University in October 2002.

It has a long history of excellence and distinction as an institution. Renowned scholars and eminent personalities have served this institution in various capacities at various stages of its history. It has produced outstanding personnel who have earned great fame not only for themselves but also for the nation.

Prof. Dr. Shahid Kamal is a well renowned, internationally acknowledged name in the field of Statistics. He has earned his PhD in Applied Biostatistics from the University of Exeter, Devon, UK, and has teaching, research and administrative experience spanning more than 30 years encompassing Applied Biostatistics, Design and Analysis of Experiments, Regression and Econometrics, Business Statistics, Computer Applications & Programming and in diverse fields of Statistical Applications. He has served as Dean, Director, Principal, Professor at University of the Punjab, Lahore. He has developed many institutes and centres including Operation Research Centre and Statistical Databank. He has initiated many master degree programs at University of the Punjab. He is the author of two books and has contributed a great number of research articles in reputable national and international research journals. He has supervised many research scholars at MPhil and PhD levels. He hails from a well-known educational family of Pakistan. He has joined as the Vice Chancellor of Government College University Faisalabad on July 24, 2019.

Vision

To excel in research with a focus on producing high quality research, innovative products, commercialization of products and develop industry linkages to facilitate researchers, faculty, students and community.

Mission

To foster and strengthen the research culture at GCUF by providing research facilities and required resources to the faculty, students, and researchers.

Introduction

The University implemented R&D policy to inculcate research culture and to increase the research productivity. ORIC has been established at GCUF in line with the guidelines of the HEC for coordination, implementation, research support services and promotion of R&D policy in April 2009 with the name of Directorate of Research. The motivated GCUF-ORIC team is committed to extend all possible facilitation and assistance to solicit research plan under R&D projects funded by HEC and other national / international funding agencies, and to encourage every single innovation which stimulates the country's economic benefits. ORIC-GCUF is also creating research opportunities for academia and scholars at all levels to directly engage them with industry to create more competitive businesses and an innovative environment.

Objectives

The ORIC is responsible for the commercialization of innovative products developed by the GCUF researchers, faculty, and scholars. Our focus is:

1. To promote quality research culture at GCUF through different research incentives given to the faculty, researchers, and students
2. To motivate the faculty to submit proposal to secure funding from national and international funding agencies
3. To facilitate the faculty by providing awareness about Intellectual Property rights and legal services.
4. To facilitate the students to interact with the industry to avail

job market opportunities through University-Industry linkages
5. Promoting the entrepreneurial ecosystem at GCUF.

Research Management Section: GCUF

Research Projects Database

Research Management section develops programs for faculty of GCUF to produce high quality research and win national as well as international competitive grants. GCUF had won 65 research grants in the year 2018-19 and stood at the top position in higher education institutes of Punjab. Similarly, during year 2019-20 won highest number of projects among HEIs of Punjab. Not only sciences but social sciences faculty also got top cutting edge grants by writing high quality proposals. Furthermore, our faculty member won research grants from joint research support programs of Pakistan Science Foundation

(PSF) and Ministry of Research and Technology of Iran, Turkey, Japan and China. The research funding earned by GCUF faculty is exponentially increasing every year and exploring new horizons.

Innovation and Commercialization

This section guides researchers to commercialize their innovations under the approved IP policies. Furthermore, it is responsible to provide startups to University students through Business Incubation Centre. Entrepreneurs and business leaders can contribute as mentors and can offer their expertise in development of entrepreneurship courses and subjects aligned with the needs of that specific industry.

University-Industry Linkages

The ORIC promotes public-private partnership through directorate of industrial linkages. Effective cooperation between institutions and industry is for mutual benefits depending upon the nature and ability of both entities. At national level, we are working in close collaboration with Saffron Pharmaceutical Industries, Ltd, Rafahan Maize Products Ltd., Power Chemicals Ltd., BioTek Ltd, Lahore, Printex Traders, Haris Dyes and Chemicals, Ali Textiles, Ltd., Kausar Processing Ltd., Masood Textiles Ltd., etc. Faculties of Pharmacy, Institute of Home and Food Sciences and Institute of Chemistry have very strong collaborations with many local industries in terms of sharing resources, training manpower and research & development.

External Linkages

The ORIC has contributed the signing of more than 46 MOUs with national and international world-renowned organizations. Among national institutes, we have built strong working relationship with higher learning institutions, industries and donor agencies especially NIAB, NIBGE, UAF, HEC, PSF, PARB, PARC, PCSIR and several international organizations including British Council, USDA, JICA, CIDA, to enhance entrepreneurship, academic and research excellence.

Intellectual Property (IP) Policy and Legal Services

IP Policy creates a supportive environment for the achievement of best practice management in the application and commercialization of products developed within the institute for the benefit of the people of Pakistan and the world at large. The purpose of this policy will be to clarify how intellectual property is to be managed by the institute. The IP Policy states position in relation to intellectual property and informs on fundamental

steps that lead to the proper management, protection and/or commercialization of intellectual property. This policy is to be followed by all faculty members, researchers as well as students and the research and academic institutions with which the institution concerned may enter into agreements. ORIC-GCUF facilitates the faculty providing IP rights and legal services.

Ethical Institutional Review Board (IRB)

The responsibility of Ethical Institutional Review Board (IRB) is to undertake meticulous reviews of research proposals before submission to national and international funding bodies, to ensure that all research, especially research on human subjects, adheres to ethics guidelines.

Co-ordination with Advanced Studies and Research Board

ORIC will provide the Advance Studies and Research Board (AS&RB) an annual report describing priority areas for research for graduate studies and highlighting the research achievements of the University.

Career Counseling & Alumni Affairs

Ph: 041-9200880
Email: careercounselling@gcuf.edu.pk

Career Counseling & Alumni Affairs (CCAA) serves as a permanent connection between students, alumnus and their alma mater. It offers career support for the students of the university. It provides vibrant and high quality services through counseling, consultation and

designed facilities for learning and well-being of students regarding their career. Moreover, it connects the outgoing students with the currently enrolled fellows to share their memories and success stories. It arranges Alumni Dinner, Career Seminars, Workshops, Meetings, motivational lectures and Awareness Drives. It aspires to strengthen the alumni by arranging alumni tours, sports, competitions and Workshops. It has two offices on both the campuses i.e. old and new to facilitate the students. Both the offices are situated in STUDENT TEACHER CENTRE. It registers the outgoing students through its portal and stamps the clearance form of every student of the university. It has registered more than 45 thousand students.

This office works to

- Assist students to achieve their dream jobs by training them for developing resumes, curriculum vitae, statement of purpose, letters, and interview skills
- Create a job search and provide its alumnus with jobs and internships
- Establish the bond between outgoing students and university

- Provide them with platform to share their memories with their fellows and new students
- Enable students to make enduring, accountable and significant choices in a global and vibrant world
- Enrich students with leadership qualities to serve the nation enthusiastically

Mission

To achieve excellence in the provision and promotion of information services to meet the research, teaching and learning needs of the University.

Goals

To promote intellectual growth and creativity by developing collections, facilitating access to information resources, teaching the effective use of information resources and critical evaluation skills and offering research assistance by providing excellent service to students and faculty that will advance each user's learning, teaching, and research experience at the Government College University Faisalabad

Introduction

The University Libraries act as a gateway to information and knowledge and are engaged in learning and discovery as essential participants in the educational community. These help to develop, organize, provide access to and preserve materials to meet the needs of present and future generations of students and scholars. These provide well-equipped and functional physical spaces where students can pursue independent learning and discovery outside the classroom.

Collections

The GCUF Libraries have about 93,400 books (volumes) and 5000 thesis in well organized manners consisting of rare editions, reference volumes, critical guides, latest releases, large collection of research journals, periodicals, magazines etc. and daily newspapers. We subscribe competitive journals from all over the world to meet the needs of students, faculty members and researchers. These libraries always welcome the students and teachers of the other educational institutions of the city with the permission of the competent authority.

Organization of Materials

Dewey decimal classification scheme is being used for the classification of books. Anglo American Cataloging Rules

(AACRII) is followed in the cataloging process. Online cataloging process of the library material is in progress and the catalogue of about 51,700/ books is available online.

Most of the Libraries have open shelf system and users have free access to the library materials. Computers with access to library resources and the Internet facility are available in all the libraries. Research access is available to all university community in the form of catalogs, licensed library resources and websites. The rules and regulations of the library use are available on the University website.

Lincoln Corner Faisalabad, a joint venture of U. S. Consulate General, Lahore and GCUF was inaugurated by Richard Olson, American Ambassador in Pakistan, on 21/01/2014 with the objectives of promoting cultural harmony, imparting quality education and developing reading culture in the youth of the city. The Corner is a great source for current, accurate and authoritative information about the United States--its people, culture, history, policies, government and institutions. Furthermore, the Space promotes learning and dialogue by conducting weekly activities and programs based on five core areas: English Language Learning, Education USA Advising, Alumni Support, Cultural Programming, and Information about America. Prof. Dr. Tayyaba Sultana
Chairperson Hall Council

Mission

To provide the secure, peaceful and healthy life style living to the students.

Introduction

Presently university Hall Council office consists of eleven girls hostels, three situated in the main Campus and eight in new campus, having residential capacity of about 3000 students. Keeping in view, the growing demand of accommodation, for the students coming from far-flung areas, construction of two more hostels was planned in the new campus. These are under completion and with this an additional capacity of 800 students will be available at the strength of Hall Council at the end of this year. Students getting admission this year will definitely reside in these new hostels.

Almost fifty percent of the girl students of the university belong to different areas which are far from Faisalabad. Parents of these students always seek secure and peaceful residence for their daughters. Understanding this need of the hour university has planned another project of Four hostels for the girls that will be completed in next year. In this way we will be able to accommodate maximum of our girl students coming from far flung areas to quench their thirst of knowledge.

Admission Process

Admission of students in the hostels is purely on merit on the basis of distance of their home district from Government College University, Faisalabad. Student at the time of applying for online admission have to mention their consent for hostel admission. After securing her admission, an application has to be submitted on printed Admission form duly recommended by chairperson/incharge of department concerned in the office of Hall Warden. Admission form may be obtained from the same office with the deposit of Rs. 300.
One Superintendent and one Assistant Superintendent is

appointed from the regular female faculty of GCUF in each hostel, who reside in the respective hostel with the students to look after them and facilitate in various matters. All hostels are provided with the facility of Mess, run by the mess committee of students itself under the supervisory control of Superintendent, Hall warden and chairperson university Hall Council. Facility of internet connection is also provided to the students' for their smooth study and research work. In case of medical emergency, University ambulance service is available to take the students to the hospitals and now the facility of medical center has been established within the both campuses of the university. Round the clock security guards are deputed on the gate for the protection of students.

Students residing in the hostels have to strictly follow the rules and regulations made by Hall Council office. All the dues have to be paid in time. If any student is found in violation of any disciplinary or financial rules, her admission may be cancelled by Chairperson Hall Council with confiscation of all types of deposited security if required.

The primary function of the security staff is maintaining law and order in the university campus. Security staff also ensures safety of university property. The security guards also assist Directorate of Student Affairs in dealing with the issues arising out of the violation of university code of conduct. It is all due to the untiring efforts of the Chief Security Officer and his staff that university

is successfully maintaining discipline since GCUF is a crowded campus of over 39000 students of various academic disciplines. Government of Punjab has shown serious concerns over the security measures in the educational institutions, specially catering to very long number of students. In this regard university security committee, comprising of senior faculty and administrations members was developed.

The University has 7 faculties comprised of almost 60 departments imparting education in various disciplines. The Directorate of Undergraduate Studies (DUS) was established in 2012 in order to maintain the complete record of undergraduate students from admission till completion of degrees. Since then, the Directorate is

maintaining the record file of every individual student admitted in undergraduate programs. The Directorate has also the responsibility to facilitate the students in their academic issues i.e. enrollment, re-enrollment, freezing, de-freezing and other relevant academic matters during the course of studies.

The goal of the Directorate is to help students to achieve academic success by providing extensive academic advising services as well as coordinating advising support throughout

the university. Accordingly, the Directorate works with faculty to establish and administer academic policies, assist with undergraduate curriculum development and review, and support proposals for new and revised undergraduate programs and courses through the various approval processes. The Directorate is also responsible for assisting undecided students with degree and career planning.

Directorate of Quality Enhancement Cell (QEC)

Ph: 041-9200036
Email: qec@gcuf.edu.pk

Quality Enhancement Cell (QEC) is established under the guidelines of HEC for the purpose of enhancing, maintaining and monitoring quality of higher education. Government College University Faisalabad is among those pioneer universities in Pakistan who established QEC in 2006. The Higher Education Commission issued directions for establishment of QEC on Oct. 16, 2006. Hence, in October 2006, Government College University Faisalabad constituted the cell according to the guidelines. Vision of Quality Enhancement Cell, Government College University, Faisalabad is to be a benchmark in Quality of Research Education among HEC Recognized Universities. To cope with the vision, following are the worth-mentioning activities held in year 2021.-2022:

1. QEC acquired the registration and has submitted the data for QS World rankings.
2. QEC conducted one day workshop on "Vision, Mission & Objective crafting in Self-Assessment Report."
3. QEC conducted five days (05) workshop on "Preparation of SAR in Affiliated Colleges"
4. Collecting SARs from Affiliated Colleges.
5. Officials of QEC, attended one day International Seminar on "QS World Rankings"
6. Director QEC, attended two days HEC meeting on "Progress Review Meeting"
7. QEC Team visited Sub-campuses (Layyah & Sahiwal)
8. QEC Official attended 03 days International Conference on: Quality Assurance in Higher Education.
9. QEC has submitted data for Times Universities rankings.

Currently

1. The QEC has sent University Portfolio Report (UPR) for HEC visit.
2. The QEC is observing daily classes from 8:00am to 4:00 pm on regular basis to ensure quality.
3. All Affiliated Colleges are preparing Self-Assessment Reports.
4. QEC is working on implementation of corrective actions regarding MS/M.Phil and PhD Program Review conducted by HEC in October 2019.
5. QEC has completed internal MS/M.Phil & PhD program

Review.

Hence, under the leadership of the worthy Vice Chancellor Prof. Dr. Shahid Kamal the Quality Enhancement Cell, Government College University, Faisalabad is working vigorously for strengthening and ensuring quality of education in this University. This is indication of his keen interest in quality assurance and particularly to ensure quality in this University.

Vision

Distance Learning Education is designed to provide commendable role model in academics, professionalism, operations and services rendered by using innovative technologies and methodologies assuring with quality by converging of existing formal education systems for convenience of massive human resource which is

required for promoting integrated national development and global understanding.

Mission

Distance Learning Education is based on state of the art facilities and effective technologies to provide accredited, very affordable, accessible and well equipped learning opportunities with blessings to those students; who are incapable to attend the traditional, on-site regular campus classes due to issue of time, space and money or other social distancing aspects.

Introduction

Distance Learning Education is evolved as an alternate or parallel to the formal education system after an increasing realization that it is not perfectly coping with the educational needs and demands of the rapidly growing young population. The demand for education in Pakistan through formal education system is consistently run ahead of resources owing to the bulk of their young population. Therefore, remains educationally defined, and there are failing the demand in formal education system; the need of non-formal education in various disciplines becomes evident in concept of Distance Learning Education. Distance Learning Education helps to:

1. Cope with the rapid increasing demand of education,
2. Provide mass education at reasonable and low costs,
3. Acquire education at any stage of their life and,
4. Boost up the professional development of working people on their job place.

Objectives

The main objectives of Distance Learning Education are to:

- Enhance the teaching and learning process through the use of innovative educational technologies.
- Supporting and training of faculty, staff, and students in the use of Distance Learning Education technologies.
- Assist faculty in the development and delivery of courses at a distance.
- Develop and maintain partnerships with other educational institutions.
- Identify and provide access to courses and programs needed in the industry and job market.
- Enhance professional development of working people at their job place.

Vision

To enable the University to build its global footprint through research and academic collaborations.

Mission

Striving for excellence to meet its directive through proactive and ambitious approach. This office has a focus to initiate linkages with reputable institutions and funding agencies and consortia with relevant academic and research organizations at international levels with the purpose of faculty and student exchanges within national and foreign universities and research institutes.

Introduction

We are doing our level best to bridge the gap between the University and the international research and academic organizations through networking and collaborations. This office is envisioned to adapt the GCUF community with changing role of the universities through a greater connectivity

and strong linkages with the regional and international communities. Therefore, this office seeks to enable the University to build its global footprint with research and academic collaborations at national and international levels by following global multisectoral approach. Since its inception, the Directorate of International Linkages has continued to strive for excellence in meeting its directive of evolving a proactive approach and development agenda geared at initiating linkages with reputable institutions and funding agencies for greater visibility of GCUF at national and international fronts. Despite a relatively young institute, GCUF has increased its academic and research portfolio many-fold which is evidenced from its consistent improvements in national and international rankings. As a result, the activities of this directorate are anticipated to grow exponentially with international organizations for building and expanding partnerships for capacity building, research & development, outreach activities and community development programs.

Objectives

The Directorate of International Linkages at GCUF aims to proactively engage in following themes of collaboration:

- Exchange of faculty, research fellows and students
- Joint research projects, conferences, seminars, workshops and internships
- Joint curriculum development and degree programs
- Sharing and/or exchange of information & resources
- Faculty and student training programs

Directorate of Industrial linkages

Ph: 041-9201110
Email: diril@gcuf.edu.pk

Vision

Directorate of Industrial Linkage (DIL) enables to shed light on motivations, barriers of cooperation and influence of public policy in developing such linkages. DIL aims to play its crucial role as a mediator and modulator for skill development, adoption of knowledge, promotion of entrepreneurship and innovation. DIL aids

in strengthening R & D investment via exploiting the synergies and complementarities present in scientific and technological capabilities. This in turn, nurtures commercialization and mobility of labor in both the public and private sector.

Mission

Since its inception, the Directorate of International Linkages is striving for excellence to meet its directive through proactive and ambitious approach. This office has a focus to initiate linkages with reputable institutions and funding agencies and consortia with relevant academic and research organizations at international levels with the purpose of faculty and student exchanges within national and foreign universities and research institutes.

Introduction

University-industry linkage is really an imperative for the progress and prosperity of the nation. It is essential to identify the areas of collaboration, co-ordination and mutual support between the two basic sectors for sustainable national progress. The level and nature of academics and research has always played an important role in the process of development and is a common practice in the developed countries. Over the years, industry-academia collaboration has enhanced knowledge, innovation and played an integral part in the economic growth of developed countries. The linkage of academia and industry has a strategic role in developing critical skills required by industry (both production and service sector), generation, acquisition, and adoption of knowledge, and in promoting entrepreneurship.

Objectives

1. To strengthen academia-industry relationship to promote technology-transfer and commercialization activities
2. To promote multi-disciplinary research initiatives at Government College University, Faisalabad.
3. To expand and integrate research activities at all levels at GCUF and to determine its strategic research directions and policies
4. To promote research and development activities to link & upgrade the competitiveness of industrial sector and to support local and the national economy
5. To develop, expand, enhance and manage university's research programs
6. To link research activities directly to the educational, social and industries.
7. To promote and improve multi-disciplinary research initiatives
8. To increase and diversifying external research funding
9. To translate research for the public's benefit

- 21.2.9 The teacher shall send the final award list of the course through the respective Chairperson to the office of the Controller of Examinations within 10 days after the conduct of respective examination. (A copy of the award list will be maintained by the respective department along-with the course file).
- 21.2.10 On receipt of the award lists, the Controller of Examinations shall notify the results and send copies to the office of the Dean/Coordinator, Director/Principal and the Chairman of the concerned Department.

21.3 COURSE FILE

- 21.3.1 Maintenance of Course File of each semester is compulsory for the teacher concerned.
- 21.3.2 The "Course File" will have a complete record of semester's contents, for instance:
 - a. Details of students' enrollment / registration in the program.
 - b. Timetable of classes.
 - c. Attendance
 - c. Course Code / Course outlines and contents as per recommendation of the respective Board of Studies.
 - d. Weekly breakup of classes.
 - e. Details of reschedule of classes, if any.
 - f. Brief points of lecture's handouts (no need to attach photocopies of books and Web Pages).
 - g. Record of assignments/ quizzes/lab work given to the student with evaluation.
 - h. Mid-term and Final Term Examination question papers. Photocopy of answer sheets (Best, Average, Poor).

21.4 DEPARTMENTAL EXAMINATION COMMITTEE

This Committee shall have proper role in supervising and evaluating the conduct of all examinations in the Department. The Committee may comprise the following:

- a. Chairperson/Incharge of Department (Convener).
- b. Two faculty members of the Department (one may be program coordinator and the other as a Secretary of Committee).

21.5 CONDUCT OF EXAMINATION

- 21.5.1 All tests and examinations shall take place in the premises specified by the Departmental Examination Committee.
- 21.5.2 The schedule of tests and midterm/final examinations shall be notified by the Departmental Examination Committee at the beginning of the Semester or whenever these are announced by Director (Acad.).
- 21.5.3 Students are responsible for checking the date time and location of their examinations from the given schedules.
- 21.5.4 For all examinations, the students may be required to show their students ID cards or personal ID for verification purpose.
- 21.5.5 Student must write the program title, subject title, course code and title and his/her registration number, signature clearly on the front page of answer sheets.
- 21.5.6 The record of question papers/marked scripts/Mid-term Examination/Final Examination etc. shall be preserved by the Controller of Examinations for two years after the completion of the degree program.
- 21.5.7 Provisional announcement of the result of a program will be made by the Controller of Examinations.
- 21.5.8 Final Notification of the results shall be made by the Controller of Examinations by displaying on the University Notice Board / Gazette / University Website.

21.6 GRADE POINT AVERAGE

21.6.1 Grade point and equivalence between letter grading and numerical grading shall be as follows:

Grade	GP	Marks (%)
A	4.00	85% or above
A-	3.75-3.95	80% to 84%
B+	3.35- 3.70	70% to 79%
B	3.00-3.28	65% to 69%
B-	2.70-2.94	60% to 64%
C+	2.35-2.63	55% to 59%
C	2.00-2.28	50 to 54%
C-	1.50-1.90	45 % to 49%
D	1.00-1.40	40 to 44%
I	(Incomplete)	
F (Fail)	0	<ul style="list-style-type: none"> • Less than 40% for undergraduate & master level programs. • Less than 50% for MS/MPhil/PhD.
W	(Withdrawn)	Will not be included in GPA calculation.

* There is no "D" and "C-" Grades in Pharm-D, Electrical Engineering and no D in MPhil and PhD programs.

In order to calculate the GPA, multiply Grade Points (on next page) with the Credit Hours in each Course to obtain total Grade points, add up to obtain cumulative Grade Points and divide by the total number of Credit Hours to get the GPA for a Semester.

$$\text{GPA} = \frac{\sum_i (\text{GP} \times \text{Credit Hours of a course})}{\text{Total Credit Hours of a semester}}, \text{ i=Number of Courses of the Semester}$$

For calculating CGPA, sum total of QPs in a semester earned in different courses multiplied by respective credit hour of a course and divided by total numbers of credit hours.

$$\text{CGPA} = \frac{\sum_i (\text{GP} \times \text{Credit Hours of a course})}{\text{Total Credit Hours of all courses in that Program}}, \text{ i=Number of all Courses in a Program}$$

21.6.2 Grade point (GP) shall be determined on the basis of numerical grade in the following table:

Percentage Marks	Grade Point (GP)	Percentage Marks	Grade Point (GP)	Percentage Marks	Grade Point (GP)	Percentage Marks	Grade Point (GP)
Grade "D" Range of Numerical value		Grade "C+" Range of Numerical value		Grade "B+" Range of Numerical value		Grade 'A' Range of Numerical value	
40	1.0	55	2.35	70	3.25	85.0 and above	4.00*
41	1.1	56	2.42	71	3.30		
42	1.2	57	2.49	72	3.35		
43	1.3	58	2.56	73	3.40		
44	1.4	59	2.63	74	3.45		
Grade "C-" Range of Numerical value		Grade "B-" Range of Numerical value		75	3.50		
45	1.5	60	2.70	76	3.55		
46	1.6	61	2.76	77	3.60		
47	1.7	62	2.82	78	3.65		
48	1.8	63	2.88	79	3.70		
49	1.9	64	2.94				
Grade "C" Range of Numerical value		Grade "B" Range of Numerical value		Grade "A-" Range of Numerical value			
50	2.0	65	3.00	80	3.75		
51	2.07	66	3.05	81	3.80		
52	2.14	67	3.10	82	3.85		
53	2.21	68	3.15	83	3.90		
54	2.28	69	3.20	84	3.95		

*Students who secure 90% or above would be placed in the Deans Honor list.

Note: Fraction in obtained percentage marks of a course will be rounded to the next whole number. i.e. 52.1% and 52.9% rounded to 53%.

21.6.3 If a student fails to obtain prescribed CGPA at the end of each Academic Year (after two consecutive Fall and Spring Semesters and summer semester) his/her admission shall stand cancelled. However, the student may seek fresh admission

21.6.4 The following CGPA is required to retain admission in a program and successful completion

For Undergraduate and Master Degree Programs:

a. After first Academic Year (including summer semester), required CGPA is 1.70

b. For the completion of academic program, the required CGPA is 2.00.

After 1st academic year, a student, who obtains CGPA less than 1.70, he/she will be dropped out from University rolls.

And if after 1st academic year, a student, who obtains CGPA 1.70 but less than 2.00, he/she will be promoted on probation (This para should be read in conjunction with 21.7).

However, for undergraduate programs, if a student is dropped out in 6th semester, then two years Associate Degree in the concerned area of study will be awarded to him/her.

For MS/MPhil Degree Program

a. At the end of the first academic year, a student must obtain a minimum Cumulative Grade Point average (CGPA) 2.50.

b. A student, who obtains CGPA 2 or more but less than 2.30 upon the completion of first academic year, may be allowed to repeat maximum two courses (if offered) of the lowest grades in order to improve the CGPA and to obtain the minimum of 2.50, failing which the student shall cease to be on the rolls. A

student who obtains 2.35 CGPA, after the completion of course work will be allowed to start research.

c. Only those students who score CGPA = 2.5 will be awarded MS/ M.Phil Degree

For PhD Degree Program

a. At the end of the first academic year a student must obtain a minimum Cumulative Grade Point average (CGPA) 3.00.

b. If a student obtains CGPA 2.70 or more but less than 3.00 at the end of first academic year, he/she may be allowed once to repeat maximum two courses of the lowest grade / failed courses, or take the additional course(s).

c. A student, who has failed to maintain CGPA 2.70, may be allowed to repeat maximum two courses (if offered) of the lowest grades in order to improve the CGPA and to obtain the minimum of 2.70, failing which the student shall cease to be on the rolls

21.7 PROMOTION and PROBATION (BS and MA/MSc. Programs)

21.7.1 At the end of each academic year (including summer), the student with Cumulative Grade Point Average (CGPA) of 1.70 or more but less than 2.00 shall be promoted to the next semester on probation.

21.7.2 A student with a GPA/CGPA below 1.7 is automatically dropped from the University rolls.

21.7.3 However, at the end of 5th and 7th and subsequent semesters, a student with a CGPA below 1.7 (after availing the maximum chances of probations and summers), he/she shall cease to be the student of the University. However, such a student may apply for an Associate Degree if eligible as per rules.

21.7.4 There shall be two probations allowed for BS and one for MA/MSc in an academic Program.

21.7.5 A student who has been declared to be dropped in 1st, 2nd or subsequent academic years may be re-admitted to the first semester as a fresh candidate.

21.8 REQUIRED CREDIT HOURS AND DURATION OF DEGREE PROGRAMS

Following is the minimum and maximum duration of academic programs.

DEGREE PROGRAM	CREDIT HOURS	DURATION	
		MINIMUM	MAXIMUM
Under Graduate Program (BS and BBA etc.)	130	4 Academic Years	6 Academic Years
Masters Programs (MA, M.Com. and MSc etc.)	66 to 72	2 Academic Years	4 Academic Years
MS/M.Phil., MBA and LLM etc.	30 (Minimum 24 credit hours of course work + 06 credit hours of thesis)	1.5 Academic Years (Full Time Student).	04 Academic Years* (Full Time Student).
		3 Academic Years (Part Time Student).	04 Academic Years* (Part Time Student).
PhD Programs	Minimum 18 Credit Hours Course Work + Research Thesis (after qualifying the comprehensive examination) .	3 Academic Years [Minimum course work duration will compose of two semesters (1 year)].	(07+1) 08 Academic Years*

* Extension for a specific period in cases of M.Phil after 2 years and in PhD after 5 years will be granted on full justification, a progress report by the Supervisor and recommendation by the AS&RB only to those students who maintain their student status and are not absconders. Finally the extension if fully justified should be 5+2 and the 8th year should be for examination, result etc. purpose only. To provide sufficient time for thesis evaluation process, examination and result etc., the thesis should be submitted earlier than 14th semester. Both student and his/her supervisor are responsible to complete every task within 7 years.

21.9 REQUIREMENTS FOR THE AWARD OF DEGREE

Within the framework of General Rules/Regulations for the award of a graduate or a postgraduate degree special/specific rules may be applicable to certain degree programs. These rules may be issued by the University in order to ensure quality standards and performance of the candidates. Candidate will be awarded the relevant degree, provided that he /she has

- (a) Undertaken a program of study for a period not less than the prescribed period of study given for that program.
- (b) Completed the total credit hours of courses as stated in the regulations for that degree;
- (c) Passed the prescribed examinations;
- (d) Fulfilled minimum course work and lab work requirements,
- (e) Qualified the comprehensive examination (where applicable).
- (f) In case of thesis, passed the Viva Voce and / any other mode of assessment prescribed by the University.

21.10 CALCULATION/COMPILATION OF THE FINAL RESULTS

- 20.11.1 The CGPA will be reported up to two decimals and in case of a tie merit, position will be determined on the basis of the weighted percentage marks obtained.
- 20.11.2 Compilation and notification of the results will be issued by the office of the Controller of Examinations.

22. SPECIAL EXAMINATION AND INCOMPLETE GRADE

Absence from any scheduled examination is permissible only in extreme situations beyond the control of the student as approved by the Vice Chancellor. Serious illness of the student or death of the immediate family member is regarded as a legitimate reason for scheduling a special examination. Even in an emergency situation, the student or someone on his/her behalf must inform the Chairperson of the Department in writing before the examination. Request for scheduling a special examination should be submitted to the Chairperson, along with other required documents, within one week of missing the examination. The Chairperson will send the case to Controller of Examinations for notification after the approval of the Competent Authority.

If a student appears in mid-term examination but cannot appear in final examination due to the reason(s) beyond his/her control except lecture shortage, may be awarded "I" grade. However, such student may appear within the next semester without enrolment of the said course. If he/she fails to qualify the said course, he/she will be awarded "F" grade.

The special examination of the mid semester examination will be managed by the concerned teacher and chairperson of the department before the commencement of the final examination.

23. STUDENT GRIEVANCES AGAINST COURSE INSTRUCTOR

- 23.1 A 05 member Committee constituted of 02 senior faculty members, relevant chairperson of the department and dean, headed by Controller of Examinations to redress the grievances of the students about any course instructor or grades or for any other issue.
- 23.2 In respect of grade, a student must submit the grievance application if any, in writing to the Chairperson the Department within (07) seven working days of the receipt of the grade. The Chairperson of Department shall forward the grievance application to the Committee. It will be mandatory for the Committee to hear both sides (student and the instructor) and will give its final decision within (05) five working days or before the start of registration for the new semester, whichever comes earlier. The decision of the Committee will be deemed final and will be binding on all parties.

Conduct is the set of rules & regulations to maintain discipline among the students. This Code of Conduct will be enforced in the University, in the constituent Institutes and Sub-Campuses.

The Government College University Faisalabad (GCUF) has emerged as a leading research University in Pakistan. The University is fulfilling its responsibility of graduating culturally enlightened, technologically knowledgeable, academically competent and research oriented productive citizens who are prepared to lead, inspire, and serve humanity. The University wholeheartedly commits itself and all its resources to this sacred trust and responsibility.

The GCUF community comprises of a diverse population of students in pursuit of academic excellence. It strives to refine the ability of students to reason and to communicate freely and clearly so as to become responsible, morally equipped and moderate. It is therefore expected that these attributes, in turn, should be reflected in their everyday behavior, attitude and dress.

GCUF believes that the regulations, guidelines and safeguards described herein are indispensable features to maintaining an academic environment.

Academic Dishonesty

Academic dishonesty is an act of fraud, which may include misrepresentation, deceit, falsification, or trickery of any kind that is done by the student with the purpose, intent, or expectation of influencing a grade or other academic evaluation.

Academic dishonesty also includes forgery and falsification of University academic documents, intentionally impeding or damaging the academic work of others, or assisting other students in acts of dishonesty. Common examples of academically dishonest behavior include, but are not limited to, the following:

1. **Cheating:** Intentionally using or attempting to use unauthorized materials, information, or study aids in any academic exercise; copying from another student's examination sheet; submitting work prepared in advance for an in-class examination; taking an examination for another person or conspiring to do so.
2. **Fabrication:** Intentional and unauthorized falsification or invention of any information or citation in an academic exercise.
3. **Facilitating academic dishonesty:** Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty.
4. **Plagiarism:** Intentionally or knowingly or unknowingly representing the words or ideas of another as one's own in any academic exercise; failure to attribute direct quotation, paraphrase, or borrowed facts or information.
5. **Unauthorized Collaboration:** Providing, either knowingly or through negligence, one's own work to assist a student in satisfying a course requirement, or representing material prepared by or with another as one's own independent work. In instances where students are permitted to work jointly to complete an assignment, instructors will offer clear guidelines about when and how to collaborate; if a student is unsure, it is the responsibility of the student to ask the instructor.

Unfair Means

Use of unfair means generally covers the following:

1. An attempt to have access to the question paper before the test/examination.
2. Use/possession of unauthorized reference material during test/examination.
3. Any form of communication by the examinees with any one in or outside the test/examination room while the test/examination is in progress.

Vision

To become the best Applied Linguistics department in the world by producing world class graduates and scholars well versed in both theoretical and applied aspects of language studies, teaching and research, particularly, to enable the learners to cope with the radical changes taking place in the third world.

Mission

- To produce knowledge through research on all aspects of linguistics and language use including language teaching, language and business, language and society, language policy, language and the deaf, language and culture, language and law, language and politics etc.,
- To train students to appreciate the nature of language in general and regional languages in particular, and their role in the development of the society,
- To prepare our students to take up prominent roles and provide solutions in all aspects of public life where language expertise in all forms is called for.

Introduction

The term 'applied linguistics' refers to a broad range of activities which involve solving some language-related problem or addressing some language-related concern. It has earlier appeared as though applied linguistics, at least in North America, and was first officially recognized as an independent course at the University of Michigan in 1946. Now, It has become an independent department in all over the world universities. The objective of the department of Applied Linguistics Government College University is to produce intercultural harmony with the collaboration of worldwide famous universities.

The Department aims at serving the nation by filling the gap of expertise in language-related studies in the country, directing its special attention to qualitative improvement in the profession of language teaching/learning and language-analysis through field-specific research. The Department seeks to join hands with the HEC in paving the way towards the common goals of achieving excellence in language-related studies/research and embarks upon this enterprise in conjunction with the centers sharing similar aspirations.

Our spirited team aims at providing students with an understanding of the theoretical and empirical foundations of various disciplines of linguistics and applied linguistics, enabling them to develop an informed and critical awareness of the issues of linguistic problems, their analyses and the solutions with innovative techniques. Above all, the students are trained to seek relevance and applications of theoretical perspectives in the national context. Alongside academics, the Department organizes various events to enhance its students' competencies in educational as well as social life. The students who are awarded degrees from the Department have a vast range of job opportunities at national and international levels.

The faculty members of the Department have contributed more than hundred research papers to academic journals in addition to presenting papers at various conferences across Pakistan.

The Postgraduate Diploma in ELT is an evening program, primarily intended for teacher training. The syllabus of this program includes the latest models of grammar, and approaches and techniques of language teaching and testing.

Co-Curricular Activity

To broaden the vision and keeping the student abreast with current affairs, the department conducts seminars weekly on emerging issues. The competent faculty of other departments

Teacher Incharge: Mr. Wajahit Ali

Vision

To promote both art and aesthetic sense to fulfill the demand of national and international requirements. Our vision is to represent the diverse artistic traditions, for the inspiration and education of the public in accordance with our profession's ethical standards and practices.

Mission

To formulate an artistic and educational community that values creativity, innovation, and conceptual tracks. The institute craves to temper craftsmanship with discipline and knowledge in the field of Art & Design.

Introduction

Institute of Art & Design offers 4-years degree, Bachelor of Fine arts (BFA) with the specialization (Fashion Design, Textile Design, Graphic Design and Painting). The Institute is also offering the MPhil in Art and Design. Studio teaching at the institute is supported by well-equipped laboratories, broadband internet access, a sculpture workshop, photography and print-making studio, weaving lab, sewing lab, pattern lab, drawing lab, a library, and well-equipped computer lab.

Textile Design

The objective of the Textile Design major is to introduce a broad range of Textile processes and theoretical perspectives on which to base the practice of textile design. It also develops the skills necessary for researching and originating contemporary textile themes and creating fabric prototypes and samples. Textile Design is concerned with understanding and creating one of the most intimate and yet public aspects of the material

world. As technological and cultural creations, textiles and fundamental to the way we clothe, shelter and represent ourselves. As aesthetic expressions, textiles construct and communicate individual and social identities. Since the weather pattern of Pakistan mostly remains hot & dry, the focus of the majority of the designer is turning to launch individual brands in the field of Textile Prints for apparel, bedding and furniture prints. Therefore, it is pertinent for us to divert our curriculum in introducing the latest and innovative textile prints to attract industrial factors & demands.

Graphic Design

The term Graphic Design often refers to both the process (designing) by which the communication is created and the products (Designs) which are generated. The faculty of Graphic Design focuses on number artistic and professional disciplines which lead to visual communication and presentation. Various methods are taught to the students to create and combine symbols, images and words to create a visual representation of ideas & messages. Students use typography, visual arts and page layout techniques to produce the final result. To impart academic knowledge and give practical exposure to the students of Graphic Design to produce skilled manpower for advertising agencies and other sources of product promotion services.

Fashion Design

The Faculty of Fashion Design maintains close ties and continuously collaborates with the fashion industry to provide current students with high-quality professional training in tune with the needs of the current international fashion scene and industry.

The objective of this course is the development of the creative talent of young people who plan to become professional fashion designers. It widens their abilities through research, observation and close examination of the methods for the creation of an innovation and individual fashion collection.

Painting

The Faculty of Fine Arts committed to the study and practice of the visual arts as these relate to creative artmaking, educational practice and theory and the understanding of art in its diverse historical and cultural backgrounds.

Institute of Art & Design produces well equipped graduates, to meet the numerous overlapping skills currently demanded within professional art practice and theoretical discourse.

Department of English Literature

Phone: 041-9201413
Email: engliteration@gcuf.edu.pk

Vision

To enable the students to cope with the radical changes taking place in the field of knowledge. The Department aims to stimulate humanistic learning and the capacity to respond rationally and imaginatively to literature and life. Through the advancement of knowledge, skills and human creativity, the Department prepares students to be independent, enlightened thinkers aiming to work as professionals and opinioned leaders of tomorrow.

Mission

To inspire an appreciation for the English language and its literatures, and to cultivate its effective use in creative expression and day-to-day life. The Department strives to enhance student success by fostering an environment conducive to intellectual and personal growth and aims to preserve and protect academic freedom and intellectual independence. It provides a forum for critical inquiry and debate. Our mission is to instill in the students a spirit of critical inquiry with a capability to look beyond their parochial surroundings and analytical vision to place and define themselves in the wider social, cultural, political and ideological environment. Through our extensive curriculum, we aim at the development of an educated and enlightened population capable of informed judgment and responsible citizenship and the availability of persons who have the knowledge, skills and adaptability required by public and private enterprise.

Introduction

The Department of English Literature is one of the leading departments of the University with a rich history of excellence,

quality teaching and research spanning over decades. The Department has always been committed to the symbiotic relationship of teaching, research and the larger concerns of society. The Department of English seeks to provide to the diverse needs of its students by offering them the opportunity to read widely, understand and enjoy what they read, and to express themselves both orally and in writing with ease, force and clarity. The English Department maintains its strong commitment to traditional areas of study, while also supporting groundbreaking research and teaching in new and interdisciplinary approaches to literary studies.

The Department of English caters for the needs of other departments related to English language, hence maintaining close ties with other departments. English Department teaches across the whole range of English literature and language studies including English Translation Studies. Our aim is to provide students with a stimulating environment in which to develop skills in all areas of English.

Email: history@gcuf.edu.pk

Programs Offered

1. BS History
2. MPhil History
3. PhD History

Chairman: Dr. Rizwan Ullah Kokab

Vision

We aim to be a leader of the disciplines of social sciences by developing analytical tools excelling in teaching, scholarship and exploiting opportunities for academic research.

Mission

To make the discipline of history an excellent part of social sciences for the students by inculcating a curiosity for raising and sorting out solutions to questions about the complex past of humankind. The department instills the students with a passion for in-depth knowledge and skills to understand phenomenon of the human experiences by a comparative study of the past and present societies cultures and Civilizations.

Introduction

The discipline of History was launched by bifurcation of already existing Department of Pakistan Studies and Political Science that was in 2011 renamed as the Department of History and Pakistan Studies. This department was further bifurcated in two independent departments i.e. History and Pakistan studies.

As history focuses the actions and deeds of the human beings, therefore, it studies the past societies, cultures and events caused by human beings in particular time and space. The Department of History specifically deals with those societies, cultures and events with reference to the temporal and special dimensions. Besides the core subjects of History, Historiography/Philosophy of History and Research Methodology, the department imparts learning and understanding in a wide range of subjects and topics, such as social, cultural, geographical, political, economic and religious contours. The Department of History exclusively offers the courses of history, therefore, it also envisions in the near future to offer the neglected courses of the history of

designing, history of art and history of architecture and History of Archives. The department believes to teach the courses in a way to enable the students to draw lessons from the past experiences of human beings and to help the contemporary society in correcting its course of action.

The goal and objective of the faculty of the Department of History is to create a conducive environment for the students to polish their skills and become experts in carrying out quality research in the discipline of History. The horizon and spectrum of the discipline of history is very broad and it encompasses various periods, epochs and events. It covers the histories of geographies, topographies, areas, regions, continents, wars, religions, governments, elections, constitutional developments, economies, movements, personalities, concepts, languages, literature, cultures, civilizations, writings, medicines, food, arts and paintings.

Being multi-disciplinary in nature, history is connected with all other social sciences as they deal with the actions and deeds of human beings within the society and has come out from the lap of history itself. History shares concepts and ideas with these various disciplines and in return borrows from them. Keeping in view, the faculty of the Department of History intends to teach the subject from that broader perspective. Besides, the Department aims at, the promotion of factual and interpretive history, curiosity to find the truth, generalization, objectivity, unbiased and unprejudiced approach, and curiosity to find the truth. For the pursuit of enhancing conceptual and intellectual capabilities of and activities of the students, the Department has a functional Society and Study Circle. That is why the Department is growing and flourishing day by day in size and performance.

Phone: 041-9200152
Email: law@gcuf.edu.pk

Programs Offered

1. LLB (5 Years)
2. LLM

Incharge : Dr. Muhammad Amir Manj

Vision

The College of Law envisions a society which is just, democratic, and law abiding.

Mission

To prepare legal practitioners with sound theoretical background and commitment to ethics and fair play. These professionals will play their role in upholding the sanctity of the constitution and the courts of law. They will become torch bearers of human rights, child rights, women rights and minority rights, contributing immensely to the cause of social justice and just society.

Introduction

The Faculty of Law was established in 2003. The Faculty has its own distinction among other faculties of the University. The programmes offered by the College aim at satisfying academic and professional requirements of the students, so that they may enter the arena of legal practice with all the requisite legal and professional skills. The dynamic teaching faculty of law provides legal education with an Islamic and Pakistani perspective that is relevant to the structure of Pakistani state and society. The students are encouraged to develop critical and analytical skills by involving themselves in the research activities. Owing to the commitment and efforts of highly professional teaching staff, the Law College has made its name in the legal education. Five Years Law Programme is in accordance with the approved curriculum of HEC and Pakistan Bar Council and is designed to cater to all the professional and legal requirements of the students.

- Academic Programmes are recognized by HEC as well as by Pakistan Bar Council
- LL.B program contains latest laws which are not included in the curriculum of other colleges.
- Pakistan law site to consult latest case laws
- On line library of College of Law
- Faculty consists of young and experienced faculty members who are highly committed.

Introduction

The Department of Library & Information Science, Government College University, Faisalabad offers quality education to meet the needs of an emerging information and knowledge society in Pakistan. LIS has the services of MPhil qualified and experienced faculty. The programme of Master of Library and information was approved in 2012 and admissions in MLIS were started in spring 2015, under the Distance Learning Education (DLE) Programme. Uptill now, two batches of MLIS students has completed their studies.

As we all know that, this is the era of knowledge explosion, now e-resources have got equal importance along with the print sources. Therefore, syllabus has not only emphasis on how to manage the physical resources (books, journals, newspapers etc.), but also consists of methods and techniques enabling the students how to use e-resources.

Keeping in view all these developments, the nature of this discipline and the profession has also been changed. Now the discipline and the profession have the capacity to meet both the environments of print and electronic media.

As in modern era information is considered oxygen to the society, the dream of a prosperous and useful society cannot be achieved without an informed society. Economy of a country cannot grow without providing updated and latest information to the masses. We are endeavoring to produce information managers who can acquire, manage, store and disseminate information to the target audience without limitations of time and space.

Vision

To groom the students for carrier oriented approaches in the field of Media studies and prepare them to be true professionals and researchers .The department seeks to inculcate the values of truth, objectivity and impartiality among the students so that they may perform their roles as disseminators of knowledge and makers of opinion without any bias and prejudice.

Mission

To promote healthy and positive approach towards the better understanding of information, knowledge and opinion building.

Introduction

Communication and media studies have gained vital importance in this age of science and information technology. A nation cannot safeguard its domestic and foreign interests, and get its due status in the globe without using its communication channels effectively. Advancement in information technology has made the world a global village. So, it is the need of the hour to give special focus on mass media education. Although Mass Communication is an emerging discipline, yet, it has got paramount importance in recent times. Media is playing a vital role in promoting different ideologies both in the domestic arena and around the globe. It is a reality, that a plenty of factors influence the production and consumption of the message for effective communication. The productions of media contents have to pass through different phases. Therefore, in-depth

understanding of covert and overt pressures on the production of the media contents is indispensable for the students of Mass Communication. Public Relations, Communication Strategy, Advertising Campaign, Media Policy, Image Building and Public Opinion Formation are the basic tools of communication in media studies. The department has an excellent academic environment. All the faculty members are experienced and qualified. Students are also being benefited from the expertise of media educators and known professionals. All University facilities; transport, hostel residence, main library membership, study, excursion tours and sports facilities are available for the students.

Shortly, a print production house, a broadcasting house and TV studio will be set to impart practical skills to the working journalists and students alike. After the completion of their courses, students will be able to become professionals in public relations, advertising agencies, print and electronic media, as reporters, editors, anchors persons, radio producers, TV producers, media managers, public relation officers, publicity officers and copy writers.

A well-equipped and technical video lab has been established for practical work of the course.

Department of Pakistan Studies

Phone: 041-9201428

Vision

To be a leader among other disciplines of social sciences at institutions of comparable size and character through excelling in teaching, scholarship and counseling and exploiting opportunities for academic research, experimental learning and off-campus study; the Department promotes scholarship, discipline and civic participation.

Mission

The Department of Pakistan Studies is dedicated to the pursuit of academic excellence and diversity. The department strives to polish the students' intellectual curiosity with a focus on tools to assess and solve complex problems and inculcate skills to become independent and motivated decision-makers.

Introduction

The Department of Pakistan Studies was established in 2003. It aims to impart deep learning and understanding of the historical, social and cultural, political and economic contours of the state and society of Pakistan. It also attempts to orientate the students towards the institutional strengths and weaknesses of the government in order to reinforce its strengths and correct what we may call our deficiencies.

We envisage making the department as a center of excellence of Pakistan Studies with the aims of producing capable experts and quality research in the subject of Pakistan Studies. The Department aims to launch PhD program in the near future. Pakistan Studies is an inter-disciplinary subject and it offers courses which have close affinity with and understanding of other subjects of Social Sciences such as Economics, Sociology, History, Political Science, International Relations and Pakistani

languages and their literature. We are trying our best to encourage and prepare the students for the exploration, analysis and advancement of research on the issues besetting Pakistan internally and externally. In this regard, the authorities of the university are planning to establish a Research Centre in near future which would not only concentrate on the basic issues of Pakistani state and society but also examine and boost the prospects of peace in South Asia and suggest ways and means to promote harmony and stability in the region.

Department of Political Science

Phone: 041-9201211
Email: political.science@gcuf.edu.pk

Vision

To committed for excellence in teaching, scholarship and mentoring. By offering a distinctive program that includes opportunities for independent research and experiential learning. The Department promotes scholarship in the political science discipline, civic participation and leadership.

Mission

To promote scholarship, leadership and responsible citizenship among students at Government College University, Faisalabad. The Department provides a solid liberal arts curriculum that exposes students to the principal subfields of the discipline and develops transferable skills of liberal learning. Actively involved in research, teaching and applied scholarship, the political science faculty serves as mentors to students seeking academic challenge and civic involvement.

Introduction

Great emphasis is being laid on Political Science as an academic discipline since 20th century. In the wake of globalization, free-trade and increasing influence of supra-state institutions world over, Political Science has gained all the attributes of dominating the world-scene in the 21st Century. The Department of Political Science deals in the area of study which encompasses the global as well as domestic affairs. It examines some of the critical issues of modern times, including the changing nature of international cooperation and conflict, the new character of warfare, the impact of globalization upon states and societies

and the persistence of world problems such as poverty, migration and drug trafficking. The roles of state and non-state actors in shaping world politics in the new millennium are central to the study of Political Science, as is an understanding of how different visions of world order affect the prospects for peace and security. In the era of globalization and regionalism, national survival is now premised on international orientation for which the nations strive not only to equip themselves with modern technologies in all fields but also with competencies in the management of trans-national relations. To achieve this objective and to build future national leaders who are capable of playing effective roles in government, political institutions and international organizations the Department has designed broad based Programs in Political Science. The main objective is to provide the students with an education that develops an understanding of the national and international community socio-political and economic spheres. The department of Political Science has successfully launched the programmes of PhD in Political Science, M.Phil. in Political Science, BS Political Science and BS in Politics and Parliamentary Studies.

Chairperson: Prof. Dr. Zahira Batool

Vision

To enable the students through teaching and research to develop their bright future.

To highlight the social issues and address them through the research and maximize the social development.

Mission

Sociology is systematic study of human behavior in a society. Moreover, sociological knowledge provides social and cultural guide line to the students in their practical life. This is being imparting knowledge and skills to young sociologists, social engineers and social workers. Moreover, efforts are made to discover the broad pattern of interaction of social life that influences the social behavior. This is further strengthened by carrying out research on socio-economic, cultural, social, demographic, environmental and political problems of Pakistani Society.

Introduction

Sociological knowledge is applicable in every field, in every day personal interactional situation and in all aspects of life. Sociology is the scientific study of the human relationships and their consequences. It is the study of collective human behavior and social forces. It is committed to provide research skills to students that can be integrated usefully with relevant practical experience. Sociologist seeks to discover the broad patterns of interaction of social life that influences social behaviors. We provide students with a coherent introduction to core themes

and issues of the discipline in a stimulating environment. Moreover, we offer graduate and post graduate level education in social sciences with a strong emphasis on communicative process and technologies within institutional settings, drawing on the active research interest of faculty and students. We also offer education in social sciences within an interdisciplinary context which highlights the continuities and differences among a number of scientifically social prospective. Training in a range of methodologies and research skills appropriate to these disciplines provides rigorous foundation for this distinctive feature. In addition, internship opportunity with international and national organizations working in the field of social development is provided to the students in order to blend the academic knowledge with practical skills.

This department was established in 2005 at Government College University Faisalabad. The faculty of the Department includes highly qualified and experienced teachers who have a track record of academic and research experience and relevant field experience in national or international organizations. In addition, short certificate courses on different social development aspects like Poverty Alleviation, Gender and Development, Human Development and Sociology, Communication and Presentation Skills, Community Management Skills, Urban Transportation Management, Urban Renewal, Participatory Relax/Rapid Approach (PAR), Project Planning and Logical Framework, Population Studies, and Social Problems of Pakistan etc. are being planned to be launched very soon.

Department of Economics

Phone: 041-9201478
 Email: economics@gcuf.edu.pk
 sofia_eco@gcuf.edu.pk

Vision

To achieve broad and increasing recognition of the excellence of its programs among public and private institutions in the region and at international level; and to equip students with skills to implement theoretical and applied research work that will contribute to knowledge and resolve problems confronting the economy.

Mission

To enable the students to exercise their intellectual capacity, to acquire disciplinary knowledge and analytical skills, to value diversity in people and ideas, and to develop ethical decision making abilities. To produce quality economists that will play their constructive role in different public, private sector organizations, policy making, and research. The learning environment is distinguished by admission on merit only, highly accessible faculty, teamwork, and information technology-supported education. The economics faculty places an emphasis on excellence in teaching through continuous professional development in instruction, as well as, in applied and theoretical economic research. Currently, the Department is offering graduate and postgraduate degree programs viz-a-viz BS, MSc, MPhil and PhD.

Introduction

Economists deal with scarcity and choices. In a society where resources are limited and cannot meet the claims put upon it, economists suggest guidance for steering the economy to hit utmost desired goals utilizing limited means with a prime objective of social welfare in all decisions. Economic theory provides powerful and often surprising insights into individual

and social behaviors through providing a better understanding of a variety of contemporary issues.

The employment prospects for economists are very wide as the importance of economics is inevitable. Students who study economics here acquire problem solving skills that are valued by government and business employers, skills that can be used to examine a variety of economic policy issues e.g. problems of unemployment and inflation, policy and project evaluation, the impact of monopoly power and regulation, the impact of foreign trade, and public intervention to deal with social problems like environmental pollution. Our department is well-known for the excellence of its teaching and advising, with a strong reputation for producing innovative PhD graduates.

The Department of Economics has developed curricula to become competitive with the present day requirements. Formulation of policy alternatives by conducting solution oriented research to assist the decision makers for uniform growth and developing manpower in line with the demands of local and international markets are the priorities of the Department. In this context, the Department of Economics is playing a key role to fill the gap of availability of human resources that are required to improve the momentum of economic growth and eradicate socioeconomic evils.

Objectives

The general goal of the Department is to serve for the public good and to make the knowledge of Economics accessible. All the academic programmes i.e. BS, MSc MPhil and PhD of the Department of Economics have been carefully designed to fulfill the following objectives of the Department and the market demands.

- To offer quality programs that Maintain high academic

standards, include core components to foster critical thinking, communication, and commitment to lifelong learning.

- To provide the opportunity for higher education to students from diverse backgrounds.
- To assist students in developing, evaluating, and implementing employment decisions and plans by helping students to develop self-knowledge related to career choice and work preferences, providing educational and occupational information to guide students' career and educational planning.
- To develop their understanding of the world of work and linking students with alumni, employers, and professional organizations

In addition to imparting class room knowledge, department strives hard to engage students in research activities. Department has won many national and international projects in this regard. These projects are enhancing capacity building and providing employment opportunities to the students. Currently, three projects are running in the department. The project entitled **"Estimation of transport energy demand and development of future pathways for greener Pakistan"** under HEC NRPU 2017 was won by Prof. Dr. Sofia Anwar (PI) and Dr. Syed Asif Ali Naqvi (co-PI). In the 2018 NRPU by HEC Pakistan again a project entitled **"Socio-economic impacts of extreme weather events on the livelihood and adaptations to offset vulnerabilities for improving living standard in Punjab"** was won by Dr. Syed Asif Ali Naqvi (PI) and Dr. Sofia Anwar as co-PI. Department has the honor also to participate in an international project **"Strengthening Vegetable Value Chains in Pakistan (SVVSP) for greater community livelihood benefits (2018-2022)"** funded by Australian center for International Agricultural Research (ACIAR) Through CABI and UAF. In the Marketing team Dr. Sofia Anwar is working as Project Incharge -I along with Dr. Syed Asif Ali Naqvi and Dr. Abdul Majeed Nadeem as team members.

Prof. Dr. Muhammad Kaleem Khosa has taken up the charge of Faculty of Engineering and Technology as an Incharge Officer on 24-10-2019 in addition to member of several important administrative fora of the university. Prof. Khosa has completed his PhD from the Quid-e-Azam University Islamabad and later joined Government College University Faisalabad in January 2006. After that he went to University of Cambridge (UK) as a Postdoctoral Research Fellow where he stayed till December 2007. He is an HEC approved supervisor for research work and has supervised M. Phil and PhD theses. He has successfully completed NRP research project awarded by HEC. Apart from his research theses at various levels, more than 90 research papers have been published in national as well as international journals. He has presented some of valuable research articles in national and international conferences and an author of many book chapters published internationally. Under the leadership of Dr Khosa, the faculty has seen huge progress.

Vision

To become a premier hub of Chemical Engineering Technology and being recognized for diverse and high-quality technical education.

Mission

To produce skillful chemical engineering technologists to employ technical knowledge and practical skills to solve industrial problems with professional ethics.

Introduction

Pakistan is a land of opportunities. Recently, as a result of CPEC project, Pakistan has gained a vital Geo-strategic location in the region. This impact will increase the demand of technical professionals in the field of Chemical Engineering Technology in the near future.

The department of Chemical Engineering Technology at GCUF started its journey in 2016 and is the first government sector unit in Faisalabad, which initiates the degree course in B.Sc. Chemical Engineering Technology under the umbrella of National Technology Council (NTC).

Programs Offered

B.Sc. Chemical Engineering Technology

Incharge: Dr. Muhammad Ammar

Program Educational Objectives (PEOs)

Few years after graduation, students are expected to:

PEO-01: Establish a basic understanding of core domains of chemical engineering technology to resolve problems of industry, environment, and society by applying technical knowledge and skills.

PEO-02: Take the initiative in developing innovative ideas for the technological and professional growth of the process industry.

PEO-03: Perform effectively as an individual or part of a team with leadership skills while adhering to professional ethics and social values for the sustainable growth of society.

Department of Civil Engineering Technology

Vision

Emerge as a Center of Excellence in Civil Engineering Technology, fostering a generation of globally competent and socially committed civil engineering technologists who will contribute to the nation building process

Mission

To provide a comprehensive education and training at the levels and to equip the graduate with strong ethical and moral values and make them socially committed.

Introduction

The department of Civil Engineering Technology started offering BSc Civil Engineering Technology program in the year 2015. The objective of the BSc Civil Engineering Technology program is to provide the students good understanding of civil engineering solutions in a global, societal and environmental context, in consistent with the principles of sustainable development. The programme will make the students capable of identifying, formulating and solving civil engineering problems that meet specified performance, cost, time, safety and other quality needs. BSc Civil Engineering Technology program emphasizes on industry standard and research based projects to enhance the students' skills for becoming successful professionals in the field of Civil Engineering and Technology.

Vision

The vision of the Electrical Engineering Program is not only to embrace the rapid changes taking place in the Electrical Engineering sector but also to contribute to its sustainable development goals through education, research and innovations.

Mission

The mission of the Electrical Engineering Program is to prepare individuals capable of responding to the rapidly changing field of Electrical Engineering. It is imperative that our students develop the necessary intellectual ability alongside moral and ethical values to successfully grasp this change. The department meets this challenge through implementation of a dynamic and versatile engineering education system.

In line with OBE system guidelines, university's vision, mission and industrial needs, the Program Educational Objectives (PEOs) have been developed by the department of electrical engineering for BS Electrical Engineering program.

Introduction

The Department of Electrical Engineering, since its formulation in 2004, has been imparting quality Electrical Engineering knowledge and skills to its Undergraduate students. Over the years, the department has gradually been evolving into its current state with advanced teaching methods, modern laboratory facilities, highly qualified faculty including PhDs and an efficient administrative/organizational setup. These

advancements have resulted in the successful launch of MS and PhD programs from fall 2019.

The adoption of Outcome Based Education (OBE) has been a major step forward for engineering education in Pakistan. Since the accreditation of Pakistan Engineering Council (PEC) with the Washington Accord, this system has transformed our education system from the conventional input-based systems to an internationally accepted OBE system. This allows all stakeholders of the education system to contribute in the development of the engineering curricula. Based on recommendation of PEC and in line with university's mission and vision, the department of Electrical Engineering, GCUF is adopting this system with effect from spring 2019.

In line with OBE system guidelines, university's vision, mission and industrial needs, the Program Educational Objectives (PEOs) have been developed by the department of electrical engineering for BS Electrical Engineering program.

Program Educational Objectives (PEOs)

PEO-1: Apply Engineering Knowledge to resolve the technical/Engineering problems of the society.

PEO-2: Enhance the intellectual and analytical abilities in taking initiative and/or developing innovative ideas for technological and professional growth in Electrical Engineering field.

PEO-3: Work effectively as a team member or lead multidisciplinary teams while determining/demonstrating the interpersonal and management skills and ethical responsibilities.

To fully implement the OBE system in Department of Electrical

Programs Offered

1. BS Electrical Engineering
2. MS Electrical Engineering
3. PhD Electrical Engineering

Chairman: Dr. Abdul Rauf Bhatti

Engineering and to incorporate stakeholders into the system, the department has established a Placement Bureau/ Industrial Liaison Office and an Industrial Advisory board. The Placement Bureau/ Industrial Liaison Office maintains close collaboration with the industry and facilitates internship/job placement of the students/graduates and also organizes industrial visits to bridge the gap between theory and practice. The Industrial Advisory Board, comprising representatives from power and telecom sectors including Faisalabad Chamber of Commerce & Industry (FCCI), advises the department on strengthening industry academia linkages and curriculum revisions in line with industrial needs.

Vision

The vision of the program is to be the front runner in the field of technology by producing highly competent and sought-after technical professionals capable of bringing Pakistan into a new era of technological advancement through education based on industrial trainings, hands on experience and research.

Mission

The mission of the program is to produce professional technologists who are not only capable of handling all the challenges of their field with intellectual expertise but are also aware of ethical and moral aspects of their work to adopt this change.

Program Educational Objectives (PEOs)

PEO-1: Demonstrate excellence in profession through knowledge and hands-on skills in the field of Electrical Engineering Technology.

PEO-2: Maximizing hands-on training of students to cater manufacturing, testing and other related field service demand of the industrial sector.

PEO-3: Graduates should demonstrate professional ethics, leadership and commitment to team-work contributing to the morality of their profession.

Department of Environmental Sciences & Engineering

Phone: 041-9201566

Vision

The department envisions that Environmental Science is a multi-disciplinary subject combining ecosystem processes and human activities. The understanding of knowledge and skills acquired through studying Environmental Science is critical to the attainment of sustainable development for sound environmental management.

Mission

The mission of the department is to make people aware of the hazards of environmental pollution and offer viable solutions to these problems. The degree programs offered by the department are aimed to develop trained human resource having strong theoretical and practical knowledge with greater competency of basic and applied aspects of Environmental Science and Engineering. Courses for the degrees offered at the department include BS Environmental Science, MPhil Environmental Science and PhD Environmental Science have been designed to deliver a comprehensive theoretical knowledge and practical expertise of scientific principles that would enable graduates to effectively address the local to global environmental issues.

Introduction

The degree programs offered at the Department of Environmental Sciences and Engineering bridge the gap between various basic and applied science disciplines to meet the challenges of 21st century which would require advance research and training in the field of Environmental Sciences. It is, therefore, necessary to develop the research facilities in order to cope

with future demands by engaging in multidisciplinary research. Researchers of this department are exploring the phenomena of phytoremediation, biodegradation, wastewater treatment, and climate change among others. Phytoremediation is a low cost cleanup technique comprising direct use of living green plants for in-situ (in place) removal of contaminants from soils and surface waters. Biodegradation is the chemical dissolution of materials by bacteria, fungi, or other biological means. Wastewater treatment is possible through UASB (Upflow Anaerobic Sludge Blanket Reactor). Climate change is variability in the statistical distribution of weather patterns when the change lasts for an extended period of time. In other words, it may refer to a change in average weather conditions. Odd weather patterns cause shifting of seasons, weather complexities, and resultantly high values of Heat Index.

For climate change research, development, and outreach (community awareness), GCUF collaborates with its national and international partners including PARC-Islamabad, ICIMOD (Nepal), TERI (India), BCAS (Bangladesh), Alterra of Wageningen University of the Netherlands. Heat stress has direct effects on human health. Health studies which derive a relation between health and heat usually make use of temperatures recorded at standardised locations outside city limits. In general, they do not cover the conditions in which the most vulnerable people, the urban and rural poor people, actually live in. Due to the Urban Heat Island effect, urban areas are exposed to higher levels of heat than the people living in surrounding rural areas. In addition, indoor temperatures can differ greatly from outdoor temperatures. In order to generate weather data for true urban environments, the temperatures must be recorded within the

Chairman: Dr. Shafaqat Ali

urban locations. The existing two weather stations in Faisalabad (one at the airport and the other at the University of Agriculture Faisalabad) do not generate true urban environmental data rather they produce agricultural scenarios.

Realizing the importance and need of a weather station in urban settings, the Vice Chancellor, Government College University Faisalabad inaugurated the automatic weather station at the old campus on March 02, 2016. This weather station is complete sets of instruments and measures wide range of climate and weather parameters. These instruments have been donated by the Alterra, Wageningen, the Netherlands under a joint regional project HI-AWARE. The researchers from the Netherlands, Dr. Christian Siderius and Ms Tanya elaborated the use and functions of this weather station in the scenario of heat waves in urban environments. The Vice Chancellor thanked the Wageningen University for their collaboration and discussed the use of data from weather station in various fields of life and natural sciences. There is insufficient knowledge regarding the role of potential risk factors and adaptation measure such as house building material type on heat-related mortality. The health benefits from interventions in housing and the outdoor built environment, such as increasing green spaces and using albedo (e.g. painting roofs white) are a research area offering significant potential for improving people's health, next to early warning systems. Researchers of the Department of Environmental Sciences & Engineering at GCU Faisalabad are exploiting threshold values of Heat Index in the slums of Faisalabad in order to be able to recommend to the city and district government for mitigation strategies including planting of good number of trees in vulnerable areas and recommending to the public the specific building materials to be used in their house construction. In continuation to the collaborative activities a "Stakeholders Consultation Workshop on Heat Stress in Faisalabad" was held on March 03, 2016 at GCU Faisalabad. The workshop was attended by the researchers from GCUF, UAF, PARC, ALTERA-Wageningen University, LEAD-Pakistan, representatives from Rescue 1122 - Faisalabad, Faisalabad Waste Management Company, Vice Principal Punjab Medical College, health professionals from Allied Hospital Faisalabad and civil society representatives and students. The Vice Chancellor welcomed the participants from various disciplines and offered every possible support for heat-stress related studies in Faisalabad. Participants of the stakeholders' workshop on the issues of heat stress and the related preemptive measures in Faisalabad. Organizing International Conference on "Global Environmental Change" is an annual routine activity of the Department. The 4th conference in this sequence was organized at the New Campus of the University in 2017. Five hundred trees of various species were planted at New Campus as a field activity of this conference.

During 2019, the department organized awareness walks and seminars in the wake of smog and to celebrate World Soil Day. Moreover, an International Seminar was jointly organized by the department with University of Agriculture Faisalabad and Centre for Agriculture and Biosciences International (CABI) on the issues of Parthenium (*Parthenium hysterophorus* L.) as an invasive species. Through these research and outreach activities, Department of Environmental Sciences & Engineering is imparting significant environmental awareness among the public which has been appreciated by Prof. Dr. Shahid Kamal, Vice Chancellor and the community.

At the Department of Environmental Sciences, the Environmental Biogeochemistry Research Laboratory is engaged in research related to CNP nutrient cycling and climate change, soil organic C dynamics, emerging contaminants (nanoparticles, xenobiotics and microplastics) and their effects on soil biological functions, and soil quality and health indicators in agroecosystems. The Biochar Research Unit within Environmental Biogeochemistry Research Laboratory is exploring the role of biochar in improving nutrient and water use efficiencies in semiarid agroecosystems as biochar is emerging an effective tool to promote soil C sequestration and improve soil properties to enhance crop productivity and soil quality. Evident from the academic and research outputs, the Department of Environmental Sciences has actively engaged with national and international institutes to address local, regional and global environmental issues.

The research team at the Air Quality & Monitoring Lab is engaged in research exploring the ameliorating role of various metal-based nanoparticles, for important crops & plants, exposed to tropospheric ozone, salinity & heavy metal stress. The department is also collaborating with London School of Economics & Political Science UK, NED University of Engineering & Technology, Karachi and Faisalabad Waste Management Company (FWMC) on project "Rubbish, Resources & Residues" a project investigating the need for integrated approach to solid waste management.

Department of Mechanical Engineering Technology

Mission

The mission of the Department is to produce technologists and researchers with sound knowledge on fundamentals of traditional, modern and emerging areas of engineering together with innovative design abilities, IT and managerial skills, which are essential to achieve sustainable national development

Vision

The vision of Department of Mechanical Engineering Technology is towards outstanding education and research leading to well qualified engineers and technologists who are innovative entrepreneurial and successful in advanced fields of mechanical engineering to cater the ever changing industrial demands and social needs.

Introduction

Mechanical Engineering has made the world advance. We live in by constantly improving and inventing technology. Mechanical Engineering Technology has made it possible to convert our lives towards easier mode by making everything we use, more efficient.

Becoming a Mechanical Engineering Technologist opens doors to nearly every area of industry, from manufacturing to construction; working on problem-solving projects from design stages through to commissioning and production. There is a broad range of employment opportunities within this diverse discipline involving design, manufacture, research, development, management and marketing.

We provide students with a rigorous education, hands-on experience, exposure to cutting-edge research, and support to pursue their dreams.

Vision

The vision of the Department is to become one of the best architecture departments in Pakistan & in region to gain international recognition as a leader in architectural education that promotes regional architecture and an interdisciplinary culture of teaching and service.

Mission

Graduating disciplined, creative, and critical architects well versed in the discipline's technical and professional knowledge and practices. The program is committed to:

- Developing knowledge and increasing awareness about the social, ecological, and material realms of architecture to provide healthy & sustainable environment
- Combining excellence in design, technology & entrepreneurship to meet the current, future, social, technological, & ecological challenges in Pakistan & the region

Faculty

*Subject to the availability of Staff

Objectives

"The main objective of the Bachelor of Architecture program is to educate and train students to become professionally sound and creative architects and to prepare them further for higher studies. Teaching in the department is focused on enhancing

creative abilities, critical thinking, professional competence and ethical practice.

It is a 5-year (Ten Semesters) program of studies leading to a professional degree in Architecture (B.Arch.). Graduates of this program fulfil all licensing requirements of Pakistan Council of Architects and Town Planners (PCATP), and are able to practice Architecture anywhere in Pakistan. Students registered in this program will also have the option to gain specialization in future as indicated below.

Housing and Urban Design
Landscape Architecture
Interior Design
Building Conservation
Urban Revitalization
Building Construction Management
Architectural Studies

The program of study is highly demanding and only those students are recommended to apply who are willing to work long hours. Furthermore, significant components of studies involve fieldwork, where students are required to visit construction sites, conduct field surveys, and join out of station study tours. B.Arch. degree requirements also include 16 weeks of internship in a professional establishment, which would typically take place during summer vacations.

Introduction

The Department of Islamic Studies is one of the foremost academic component of Government College University, Faisalabad. The subject of Islamic Studies was introduced in 1955-56 with the name "Deeniyat". Mr. M. Abdullah Kamil and Prof. Iftikhar Ahmad Chishti played an important role as pioneer teachers of the department. Later on, the Department of Islamic Studies was established in 1985 where leading academicians served the department. The alumni of this department have been serving in the various institutions in country and abroad. Presently, the department is offering four programs in Islamic Studies i.e. BA(H), MA, MPhil. And PhD. Two research Journal "Zia-e-Tahqeeq" and Al-Ihsan (HEC Approved) have also been launched for quality research.

Furthermore, "Rahmatul-lil-Alameen Chair" for seerah studying and Tasawwuf Study Centre" are established in the department for promoting moral values, harmony and peace in society. Department has organized many national and international conferences and workshops on the Quranic Studies, Hadith and Seerah Studies, Sufism, and Muslim culture and history. In 2013, the Department of Arabic was merged in the Department of Islamic Studies administratively and currently is again separated in 2021.

Vision

The Department of Urdu has greatly contributed in the promotion and development of Urdu language and literature since its birth in 1963. The Department started M.Phil and Ph.D Programmers in 2004 and 2009 respectively.

Mission

Urdu language has become a craze all over the world and it has connected us with the literary tradition and great works of cross cultural literary studies plus new critical theories, prevalent in the modern literature. This vision of the Department is being worked upon by implementing that frames of policies guide us to this direction.

Introduction

The department of Urdu in GC-University, Faisalabad was established in 1963 at post graduate level and very illuminating teacher Mr. Manzoor Hussain Shoar became its first chairman and academic leader. After attaining the status of University, Professor Ishfaq Hussain Bukhari became the first Chairman of the department of Urdu. The department introduced its M.Phil programme in addition to its regular master programme. The M.Phil programme was started on 2004 and Ph.D. programme started on 2009.

The department has recently started B.S Urdu four years' programmes in 2010. The Department has designed various new courses, like, Computer Literacy, translation, communication skills, script writing Diploma Daftri Urdu. The department is making every effort to encourage and nourish creative talent as well as research aptitude of students. A Journal of Research 'Zuban-o-Adab' is being published by the department according to the parameters of HEC. Biannual literary magazine of the

department reflects also its endeavor to develop creative talents of our youth. The department of Urdu has also launched a newsletter by the name "Nawa-e-Urdu". Nawa-e-Urdu is actually monthly Khabar Nama of Urdu department. Since 2006 the department has been publishing its Research Journal "Zuban-o-Adab" which has got wide recognition and approved by HEC in 2011. In order to have better introduction the Department has National & International Conferences and Seminars as under:

- 1- First International Urdu Conference "Urdu Tehqiq-o-Tanqeed Aalmi Tanazur Mein" held on 29th to 31st August 2006.

Vision

Department of Arabic aims to prepare specialists in the field of Arabic Language, Literature and Translation Studies to fulfill the contemporary linguistic, cultural, social, economic and religious requirements.

Mission

The Department of Arabic offers quality education to its students. It is committed to enhancing their knowledge, fostering their Islamic values and training them on scientific thinking skills and research methods. It imparts academic excellence and attracts students and researchers from around the world. The Department provides its students competencies in the field of teaching and learning Arabic Language for non-native speakers. The Department keeps its academic and research Programs in line with contemporary requirements. Arabic language is used as a medium for cultural, academic and educational interaction.

Introduction

The Department was established in 1976 by the distinguished scholar Prof. Dr. Muhammad Ishaq Qureshi. It is worth mentioning that this is one of the oldest Departments of the University. Teaching of MA Arabic was started in 1986 and MPhil Arabic was launched in 2002 and PhD Arabic in 2005. Besides indigenous students, several scholars have obtained their M. Phil and PhD degrees from the Department. In addition to the Department is committed to the promotion of research activities by conducting national and international conferences, seminars and workshops. The teaching staff focuses on modern functional

Arabic language. It is possible to strengthen Oriental and local languages to bring them closer to one another on the basis of Arabic grammar vocabulary and Literature.

Objectives

The major objective of the Department is to help the student achieve high levels of proficiency in modern Arabic Language. The Department offers numerous enlightening courses such as Modern Muslim World, Contemporary Linguistic Issues, Arabic Electronic and Print Media to build a strong foundation of language proficiency and cultural understanding of different fields including literature, linguistics, art, history and religion. We believe we can make the Arabic language interesting for our students, and enable them to communicate with the community around them in Arabic World. Reading, writing, speaking, and listening are core issues for appropriate communication. We aim to develop the students' potential to use their literary skills effectively.

Arabic is considered one of the oldest languages in the world with a wealth of knowledge. Today Arabic is the official Language of 26 countries and is spoken by 280 million people worldwide. Arabic Language is one of the six UN official Languages: Chinese, French, English, Spanish, and Russian. The Department aims to produce such scholars as would be able to render their services internationally in various fields.

Programs Offered

1. BS Persian
2. MA Persian
3. MPhil Persian

Vission

To promote Persian language and literature that can act as a bridge between the regions with common geographical, cultural and lingual ties.

Mission

To define new directions of research to implement various forms of learning by providing best quality and goal oriented education that will help and encourage the students to build up their professional skills and guide them to find the best opportunities to work as researchers, translators, interpreters and teachers.

Introduction

Persian is spoken by 120 million people not just in Iran, but also in Afghanistan and Central Asia. Learning Persian language is not only a source of developing our relations with Iran, Afghanistan, Tajikistan and other Persian regional countries but also helps in fully understanding Urdu language, literature and Allama Iqbal's poetry. In addition, a great treasure of religious books is in Persian language and many other have been translated in Persian language. These books are an authority in religious and religious teachings too. The department of Persian is newly established in GCUF with a view to provide facilities for advanced studies and research in the fields of Persian language and literature with particular emphasis on the literature produced in the Indo-Pak subcontinent during the last nine centuries, and to familiarize the younger generation of this country with the history, language and literature of Iran. Students of this Department continue to enter a variety of vocational fields, some of which are CSS, Advertising, Media, Banking, Business, Translation /Inter-

preting, Teaching, Educational Administration & Research, News agencies, Foreign Ministry, Central Asia Trading etc.

Vision

Our vision is to establish Punjabi Language, Literature and history as one of the oldest and richest literatures of the world favorably comparative with the literatures in other languages.

Mission

The mission of the department of Punjabi is to promote Punjabi language and literature and highlight its rich history and diversity. Punjabi is a language of Sufis which imbibes the culture and values of its people. The department aspires to restore the Punjabi language and literature to its rightful place in academia and society.

Introduction

Punjabi is the language of millions of people of Punjab and a means of communication through which they perform and execute the business of their daily life. For centuries Punjabi has been a medium of expression of the saints and other great poets of this region. Therefore the structure of the Punjabi classical poetry is erected on the foundations of mysticism and high moral values. The great mystics like Baba Fareed Gunj Shakkar, Shah Hussain, Sultan Bahoo, Syed Bulhey Shah, Ali Haider, Syed Hashmin Shah, Syed Waris Shah, Maulvi Ghulam Rasool, Mian Muhammad Bukhsh and Khwaja Ghulam Fareed presented their striking ideas in Punjabi poetic form for the worldly as well as the religious guidance of the people. Punjabi language does not only reflect the realities and attitudes of life but is also a great source of social, cultural and historical identity.

Rahmatul-lil-Aalameen Chair

Incharge: Prof. Dr Hamayun Abbas

Vision/ Mission

- Uniting all the Muslims of the country on one platform according to the principles of Islamic Shari'ah
- Providing solution to the contemporary problems of the Muslim World in the light of Seerah of the Holy Prophet PBUH

Introduction

The study of the Seerat strengthens the spirit of defending Islam and provides peace, tranquility, and contentment to the hearts of the Muslims. A thorough study of the biography of the Holy Prophet (PBUH) helps to understand the Holy Qur'an and the Hadith by developing deep connections with the principles of Islamic Shari'ah. A deep study of the biography of the Prophet (PBUH) not only provides direction about faith, shari'ah, ethics and da'wah training but also represents a perfect practical model for politics, justice, economics, moralities, and social reforms in a righteous way.

Seerat Chairs were established in general universities of Pakistan on the directions of the Federal Government during 1975-76. The Senate of GCUF in its 12th session held on 05-03-2019, granted permission for the establishment of Seerat Chair. Prof. Dr. Zakir Hussain directed to arrange an international Seerat Conference at GCUF and Seerat Chair was announced in this conference in the presence of Prof. Dr. Yaseen Mazhar Siddique on Oct, 2014.

Renaming the Seerat Chair

Seerat Chair was renamed as "Rahmatul-lil-Aalameen Chair" in 23rd session of Academic Council on 01-06-2021. Prof. Dr. Shahid Kamal played a vital role to expedite the advanced researches on this platform.

Publications:

- مباحث سیرت نبیین القرآن کی روشنی میں: اختر حسین، ڈاکٹر محمد ہمایوں عباس شمس
- A special Seerat Number of Zia-e-Tahqiq (A biannual Islamic research Journal of GCUF) was issued and it was awarded by Federal Ministry of Religious Affairs.
- A special Seerat Number of Al-Ehsan (A biannual Islamic research Journal of GCUF) was issued and it was awarded by Federal Ministry of Religious Affairs.

Prof. Dr. Humayun Abbas is an internationally renowned name in the field of Islamic Studies. He completed his Post-Doc from University of Glasgow, UK. He has been teaching, doing research and providing administrative services for more than 20 years, encompassing Quranic Sciences, Seerah Sciences, Tasawwuf and Islamic Jurisprudence. He has served as Dean, Chairperson and Professor at GCUF. He has organized many national/international research conferences and seminars. He has initiated many academic programs and two research journals Zia-e-Tahqiq and Al-Ehsan. He has authored many books and number of research articles in reputable national and international journals. One of his books on the Seerah of the Holy Prophet PBUH was awarded by the President of Pakistan. He has supervised a number of research scholars at M.Phil and PhD levels.

Iqbal Chair

Incharge: Prof. Dr. Muhammad Asif Awan

“Life moves with the weight of its own past on its back”
(The Reconstruction of Religious Thoughts in Islam)
P. 132

Vision/ Mission

Iqbal Chair is established in the Faculty of Islamic and Oriental Learning in order to understand the spirit and philosophy of Iqbal's teaching and promote his concept of the Muslim ummah across the Muslim world.

Introduction

The Allama Muhammad Iqbal was one of the most outstanding thinkers and poet-philosophers of our nation. He was not a traditional poet, singing the songs of romance, away from ground realities. He was a visionary philosopher of his epoch. His sublime poetry and philosophy inspired millions of Muslims to wake up to the reality of the time and forge a destiny for themselves. He wanted religion to be made compatible with changing times and synchronize it with science. He is also called Muffakir-e-Pakistan (The inceptor of Pakistan) and Hakeem-ul-Ummat (The Sage of the Ummah). His vision of an independent state of the Muslims of British India was the starting point for the creation of Pakistan. He is one of the most important figures in Urdu literature, with literary works both in Urdu and Persian languages.

Allama Muhammad Iqbal was keenly attached to the youth. He has a lot of prayers for the youth. He thinks that the youth are the future of the nation.

جوانوں کو مری آہ سحر دے
پھر ان شاہین بچوں کو بال و پر دے
خدایا! آرزو مری یہی ہے
مرا نور بصیرت عام کر دے

Thanks to God Almighty that Iqbal Chair has been established in Government College University Faisalabad. All Credit goes to the respected Vice Chancellor Professor Dr. Shahid Kamal who took a historic step by getting Iqbal Chair functional in the University. No doubt, the respected Vice Chancellor created history by the splendid addition of Iqbal Chair in the University.

The main objectives of the Chair are as under :

1. To promote and disseminate the study and understanding of the works and teachings of Allama Muhammad Iqbal.
2. To conduct research on Iqbal's thoughts .
3. To produce specialists of Iqbal studies.
4. To promote the message of Iqbal among the youth.
5. To conduct exhibitions, conferences, seminars, and debates on the teachings of Iqbal.

Prof. Dr. Farhat Jabeen

Prof. Dr. Farhat Jabeen holds a PhD from Quaid-i-Azam University, Islamabad and two Post Doctorates from Newcastle University, UK. Dr. Jabeen is HEC approved Supervisor and awardee of INSPIRE and SPEKE projects funded by the British Council (UK) and HEC (Pak). She has several International and National Research Projects on her credit. She got Excellent Leadership Awards from Islamic Development Bank, Saudi Arabia for the years 2011 and 2015.

She has attended more than 50 International conferences in USA, UK, Egypt, Dubai, Sri Lanka, Denmark, Turkey, Ireland, Malaysia, and Saudi Arabia. Dr. Jabeen published over 100 articles in high impact science journals. Dr. Jabeen is the awardee of HEC University Best Teacher Award-2016. With an academic experience of more than 22 years, she enjoys a strong research outlook with many PhD and MPhil scholars to her credit.

Vision

To induce the basic and modern knowledge of Biochemistry and to impart modern teaching methods in the student's learning process, so that they can lead the nation in this discipline.

Mission

Nurturing a conducive environment of biochemistry in the nation as a whole to get a leading position by fulfilling the needs of skilled man powers of speeding emerging biotech industry.

Introduction

Biochemistry is the science concerned with the chemical basis of life. Biochemistry incorporates everything in size between a molecule and a cell and all the interactions between them. The aim of biochemists is to describe in molecular terms the structures, mechanisms and chemical processes shared by all organisms, providing organizing principles that underlie life in all its diverse forms. So a biochemist would study about these molecules namely carbohydrates, lipids, proteins and nucleic acids. Biochemist also studies their reactions and what affects them and in what ways. Biochemistry is thus a study of the compounds found inside living beings, the processes involved with the focus on the role, function and structure of these molecules.

Biochemistry now encompasses all of the molecular and cellular life sciences. Scientific topics falling under the broad description of biochemistry include genetics, immunology, virology, developmental biology, neurobiology, cell biology and structural biology. A recent milestone in biochemistry was the completion of the Human Genome Project and stem cell therapy. There has never been a better time to study biochemistry. With the introduction of newer methods in science and technology, the scope of biochemistry is much greater than past. In fact, biochemistry is Fundamental discipline of life science that fulfill the requirements of all students. The challenging nature of the

subject and the leading jobs opportunities that can be got after the completion of studies in this field. There are quite a few fields where Biochemists can find employment which includes

Private Sector

- Chemical manufacturing companies
- Food and Drink (includes brewing)
- Health and Beauty Care
- Medical Instrument companies
- Pharmaceutical firms
- Research Organizations

Public Sector

- Agriculture and fisheries
- Cancer research institutes
- Environmental Pollution Control
- Forensic Science
- Hospitals
- National Blood Services
- Overseas Development
- Public Health Entities
- Public Health Laboratories

Objectives

- To produce the manpower, those are confident to apply biochemistry knowledge in different span of living beings.
- Applications of the above knowledge in the understanding of disease processes and drugs discovery with vaccination
- To provide fundamental knowledge in statistical concepts and regulatory approach in biochemistry
- To adopt multidisciplinary approach to equip the students for multidimensional carrier opportunities
- Experiments to demonstrate important bio-chemical, molecular and physiological concepts
- To encourage the student's capacity for self-learning by research work

Chairperson: Dr. Muhammad Aamer Mehmood

Vision

To develop Bioinformatics and Biotechnology professionals with interdisciplinary approaches to explore different areas of life sciences with the help of state-of-art technologies which are being applied around the globe. Introduction and promotion of Bioinformatics and Biotechnology in the country as emerging sciences is one of the primary objectives of the Department.

Mission

To provide a collaborative learning environment that prepares students to reach the forefront of leadership by developing the sophisticated computational methods to conduct groundbreaking research in key areas of Bioinformatics and Biotechnology, to make fundamental discoveries, generate innovative solutions to practical problems and to develop new technologies for commercial applications. The Department is committed to provide an exceptional environment for specialized training and to mentor tomorrow's workforce through a challenging curriculum, exploration of scholarly research, design and implementation of original investigations and interactive partnerships.

Introduction

We are witnessing the birth of a new era in biological sciences. The ability to decipher the genetic code of living organisms has opened limitless opportunities to improve the quality of human life and has dramatically changed the challenges that the biological and biomedical sciences can address. Bioinformatics and Biotechnology have become frontline applied science disciplines of the twenty-first century. Government College University Faisalabad (GCUF) is among the few institutions in the country to offer degree programs in these emerging fields of Science. Bioinformatics is an amalgamation of Life Sciences, Statistics, Mathematics and Computer Sciences. It is responsible for developing new computer programs (databases and

software) for their applications in life sciences. Biotechnology is the technological application of biological systems (living organisms or derivatives thereof) to make or modify products or processes intended for "Human Welfare" or specific use. Department of Bioinformatics and Biotechnology (BNB) provides interdisciplinary learning and training that builds bridges across different disciplines and seamlessly integrates computational methodologies into biological education on the following lines:

- A broad understanding of the molecular processes of life.
- Understanding of the tools used for mapping and sequencing of genes/genomes.
- Training regarding DNA and protein sequence and structural analysis, gene expression and proteomics analysis, data mining, optimization and statistical methods, database development and algorithm design.
- A high level of skill in designing and usage of information techniques with emphasis on the organization, display, interpretation and analysis of complex data.
- Skill development and hands on training of basic and advanced laboratory techniques being utilized in the modern scientific world.

Scope

Bioinformatics and Biotechnology is expected to substantially create an impact on scientific, engineering and economic development of the world. These are fast growing important disciplines for academic research and industrial applications. Career opportunities in Bioinformatics and Biotechnology will continue to expand on both the computer and biological science frontiers. For Computer Sciences, there are opportunities in academics, programming, database development, system analysis and software engineering. In the Biological Sciences, career opportunities exist in medical, agricultural, animal, environmental, microbial and industrial research as well as academia.

Vision

Exploration of natural world of plants and allied creature for unraveling vast untapped resources of nature for the benefit of human race as well as the glorification of knowledge

Mission

We are committed to ordain human capital with excellence in the changing scientific scenario through innovative and interactive learning and research.

Introduction

Being one of the oldest academic disciplines of this institution, the department is privileged to have a strong faculty and academic program. At present, this department is offering degree courses for BS (Hons), M.Sc, MPhil and PhD programs. Department of Botany has gained credence from the comity of global academic and research institutions. Currently the department has signed MoUs with WWF, Pakistan, North West A & F University, China and Tohoku University, Japan for research and academic collaboration.

Department aims to provide quality education in diverse areas of research. A well-knit research program with due liaison with relevant industries and partner national research organization exists at Department of Botany. We are striving to nurture our industry with trained and skilled manpower and with the development of “early bird” innovative production processes. Our research activities on medicinally important plant-derived constituents, nutritional fortification of edible grain crops, development of industrially important fungal enzymes and natural pigments, edibles free from biotic contaminants, etc. are being valued by national industrial enterprises. An all-out academia-industry linkage initiative has taken off from this forum and the relevant entrepreneurs are approaching us for collaborative research ventures of mutual interest.

A number of nationally and internationally funded research projects are also underway, and the academia is focusing on to

broaden need-based research endeavors. Molecular Biology, Plant Physiology, Integrative Biology, Environmental Biology, Economic Botany, Mycology, Microbiology and Biotechnology are some of the focal areas of research at this establishment. Currently research work is being carried out in the fields of plant molecular biology, fortification of cereal crops, medicinal plants and nutraceuticals, seed priming, enzymology, plant tissue culture, stress physiology, biochemistry, phytoremediation and heavy metal tolerance, improving crop acclimation to different agro-climatic zones and fungal taxonomy. Research on genetic basis of stress tolerance in different crops is also underway. The genomic resources are being utilized to enhance crop production by gene manipulation. Furthermore, research activities on seed metabolism, plant nutrition and plant growth regulators are in progress for different economically important crops and medicinal plants.

We are proud to be the host of 1st international symposium of this University in 2006. This department organized two (02) international conferences, five (05) international symposiums and national seminars. Besides active involvement in transferring knowledge to the students, the induction of high class academia is also upgrading the faculty profile of the department. Department of Botany at Government College University, Faisalabad is among the top choices of students for their learning needs throughout Pakistan and the numbers of enrolments are increasing every year. Until now 14 PhDs, 523 MPhil, 752 MSc and 543 BS(Hons) students have completed their studies. At present, 461 students are enrolled in BS (Hons), 403 in MSc, 271 in MPhil and 71 in PhD programs.

Faculty

Dr. Naeem Iqbal

Professor & Chairperson
PhD (UAF) Post Doc (USA)

Specialization: Plant Physiology, Molecular Marker Analysis for Stress Tolerance, Economic Botany

Programs Offered

1. BS Botany
2. MSc Botany
3. MPhil Botany
4. PhD Botany

Chairperson: Prof. Dr. Naeem Iqbal

**Dr. Muhammad Iqbal**

Professor
PhD (UAF) Post Doc (UCR, USA)
Specialization: Plant Ecophysiology, Stress Signalling and Chemical

Dr. Rizwan Rasheed

Associate Professor
PhD (UAF)
Specialization: Plant Physiology / Molecular Biology / Histology

Dr. Saqib Mahmood

Associate Professor

Department of Food Sciences

Phone: 041-9203022
Email: fs@gcuf.edu.pk

Vision & Mission

To produce high caliber graduates in the field of Food Science & Technology who will be well equipped through the training they receive, to support the rapid changes in food industries and sustain the industrial and economic development of Pakistan. This vision is pursued in par with core values of the University which are integrity, excellence, teamwork, discipline and dedication to work. The department has pursued its teaching and research program in recognition of the fact that the food industry in Pakistan is still in its fledging state. Hence it is important that this program is offered to train the needed manpower and expertise that will help the industry and will produce the healthy community that will contribute to accelerate the economic development of country. The department selects courses that are aimed at offering the students a good understanding of the basic principles of Food Technology according to the growing and dynamic needs of food industry. According to the international education standards for degree program in Food Technology, the course content of any undergraduate syllabus should cover the following categories: Food Chemistry and Analysis, Food Safety and Microbiology, Food Processing and Engineering, Applied Food Science. This degree program is not only producing skill technologist but also enhance the awareness regarding the issue that ultimately will uplift the economic status of the country.

Introcuction

The Department of Food Sciences at Government College University Faisalabad was established in 2013 and is one of the best food science departments in the country. The outstanding faculty, state-of-the-art building and laboratory facilities, and friendly and dedicated staff members make the Department a pleasant place to study and conduct research. Our undergraduate

Major offers students' hands-on science dealing with real-world applications; small, friendly atmosphere; world-class internship experiences in collaboration with international institutions like:

- Laboratoire d'Ingénierie des Biomolécules (LIBio), Université de Lorraine, France
- Department of Food Bioprocessing and Nutrition Sciences, North Carolina State University, USA
- Faisalabad Confectionary Association, Pakistan
- Engro Foods Limited, Karachi
- Halal Research Council, Pakistan
- The Halal Science Centre Chulalongkorn University, Thailand
- Pakistan Council for Scientific and Industrial Research
- The University of Gambia
- Kyungpook National University, South Korea
- Iowa State University, USA
- Amanah Halal Research Centre, Germany

Our graduate program offers graduate study leading to Masters of Science and Doctor of Philosophy degrees. Graduate students receive in-depth training in the core disciplines of Food and Nutrition, Food Chemistry, Food Microbiology, Food Engineering and Processing, Food Safety, Food Service Management.

Objectives

- To produce competent Food Scientists/Technologists with adequate scientific background to meet the needs of public and private sector, organization/industries
- To provide professional leadership, services and outreach activities in the major areas of Food Science
- To develop cost effective appropriate technologies, helpful to boost up value addition in agriculture sector
- To carry out problem oriented in the field of Nutrition and Food Technology
- To meet the training needs of public and private sector

Programs Offered

1. BS Food Science & Technology
2. MS & Ph.D. Food Science & Technology
3. Post Graduate Diploma in Scientific and Regulatory Affairs (1 Year)
4. Post Graduate Diploma in Halal industry (1 Year)

Chairman: Dr. Muhammad Umair Arshad

Dr. Muhammad Umair Arshad

Ph.D (UAF), Postdoc (Canada)
Associate Professor / Chairman
Specialization: Functional Foods and Nutraceuticals, Utilization of Bioactive Components of Agro-Industrial Waste, Food Fortification

Dr. Rabia Shabir Ahmad

Ph.D (UAF)
Associate Professor
Specialization: Functional Foods, Human Nutrition, HACCP and Food Analysis

Dr. Farhan Saeed

Ph.D (UAF)
Postdoc. (Australia)
Associate Professor
Specialization: Cereal Science: Wheat Quality and Characterization, Starch Chemistry, Functional Foods, Food Analysis

Dr. Zarina Mushtaq

Ph.D (UAF)
Associate Professor
Specialization: Food Microbiology, Dietetic Food, Food Borne Illness and Its Prevention

Dr. Muhammad Kamran Khan

Ph.D (France), Postdoc. (Australia)
Associate Professor
Specialization: Food Chemistry and Analysis, Application of Ultrasound in Food Processing, Effect of Industrial Processes on Potential Bioactive Components

Dr. Muhammad Imran

Ph.D (UAF)
Assistant Professor
Specialization: Food Ingredient Technology, Functional Foods Chemistry, Food Process Engineering

Dr. Ali Imran

Ph.D (UAF)
Assistant Professor
Specialization: Human Nutrition, Dietary Cure for Metabolic Syndrome, Functional Foods and Nutraceuticals

Dr. Muhammad Sajid Arshad

Ph.D (UAF), Postdoc. (South Korea)
Assistant Professor
Specialization: Meat Science and Nutrition, Functional Foods, Food Irradiations, Halal Foods

Dr. Adeela Yasmin

Ph.D (UAF)
Assistant Professor
Specialization: Clinical Nutrition, Prebiotics, Dairy Technology

Dr. Bushra Niaz

Ph.D (UAF)
Assistant Professor
Specialization: Food Microbiology and Biotechnology

Dr. Muhammad Afzaal

Ph.D (GCUF)
Assistant Professor
Specialization: Food Microbiology and Biotechnology

Dr. Muhammad Haseeb Ahmad

Ph.D (Germany)
Assistant Professor
Specialization: Food Science and Technology

Dr. Haroon Munir

Ph.D (GCUF)
Teaching Assistant
Specialization: Fruits and Vegetable Processing

Ms. Hafiza Saima Tahir

Vision

To attain the highest level of glory and excellence in the field of Microbiology through quality teaching and research.

Mission

To create an environment conducive for learning through quality teaching and research.
To produce competent and skilled professionals in the field of Microbiology to full fill the future needs of educational institutes.
To prepare researchers to meet the challenges of industry, research organizations, science and technology.
To develop the department as a model department of Microbiology in the country for undergraduate and postgraduate teaching and research.

Introduction

In spite of their very small size, the impact of microbes on the planet is so extensive that life without them is almost impossible. Microbiology is an exceptionally diverse science which deals with the study of microorganisms in relation to disease, industry, medicine, environment and modern biotechnology. The study of microorganisms cannot be overemphasized as they are necessary for the production of bread, cheese, antibiotics, vitamins, organic acids, enzymes, biologics, sera and vaccines. Over and above, microbes also serve as the basis and the major tools in the fields of Molecular Biology, Modern Biotechnology and Genetic Engineering. They are indispensable components of our ecosystem. Unfortunately some microbes cause all the known diseases in humans, animals and plants causing heavy morbidity and mortality.

Department is focusing on academic and research collaborations with different National and International teaching and research institutes as well as with local industries through internship programs and combined research projects. The key focus is to

conduct applied and problem solving research in different fields of Microbiology. In addition to academics and research, students of this department are equally bright and talented in extra-curricular and co-curricular activities and have won a number of laurels for the department.

Microbiology is a broad discipline which has both basic and applied aspects. Many microbiologists are interested primarily in the biology of the microorganisms themselves whereas others may be interested in particular functional processes. Some microbiologists may have an applied orientation and would be interested in practical problems in the fields of medical, pharmaceutical, food, dairy and public health Microbiology. With WTO agreement in offering, every agro-based industry and the industry involved in production and export of biopharmaceuticals, biologics, vaccines, sera and diagnostics will be required to hire a Microbiologist / Immunologist at its strength to satisfy ISO certification needs. Therefore the graduates and post graduate students from Department of Microbiology Government College University Faisalabad will have a very bright and attractive career ahead in public as well as in private sector.

Faculty members of Department of Microbiology have won three research projects under NRPU-2016-17, Ten under NRPU-2017-18 from HEC Islamabad, one from PSF, Islamabad and two under RSP-GCUF. About 80 Research papers have been published in Impact Factor Journals during 2020-21.

Department of Physical Education & Sports Sciences

Phone: 041-9201832
Email: physicaleducation@gcuf.edu.pk

Vision

We aim to be a leader of the disciplines of Physical Education and Sports Sciences by developing tools and excelling in Sports techniques, Scholarship and exploiting opportunities for academic research.

Mission

The Mission of the Department is to provide a committed and professional skills, techniques and knowledge of different Sports, which may be recognized as exemplary by its users by behaving in an approachable and courteous manner using available technologies appropriately to achieve objectives effectively at National and International level in the field of Physical Education and Sports Sciences.

Introduction

The study of Physical Education and Sports Sciences has been vital Importance in this age of science and technology. A nation cannot safe guard it's domestic and foreign interest and get its due status at National and International level without using the latest techniques of Physical Education and Sports Sciences in their professional and daily routine Life.

The Department will play a vital role in promoting different games at National and International level and is striving to sensitize and humanize its students in enabling them to become the leader in the field of Physical Education and Sports Science.

To provide high-tech theoretical and practical knowledge/skills to the students through quality teaching and research.

Introduction

- It's a recently established and comparatively rare department in other universities of the country, so BS Physiology is an emerging professional degree that needs enormous dedication and hard work as well as the space of growth as a professional career. The department of Physiology is therefore established with the vision of giving the maximum output in teaching and research, keeping in view the minimum available resources.
- The use of electronic media is encouraged to teach the students so that learning capabilities can be further enhanced.
- Study tours in the national eminent research, as well as teaching institutes, will be planned for the healthy exposure of students.
- Target-based progress plans with a suggested time frame will be set to get the required progress in limited time.
- Along with academics, a Physiologist has an enormous role to play in public health services including diagnostics, pharmaceuticals, health centers, food industry, Reagents, analytical kits, instrument manufacturers.
- Students will be encouraged to actively participate in the extracurricular activities of the University, which will be a healthy exercise to groom their physical and mental capabilities.

Achievements of the Department

- Organized international and national seminars
- Participation and oral presentations in international conferences
- Won a research grant worth 7.2 million from Punjab Agriculture Research Board
- Won a research grant worth 1.48 million from the Pakistan Agriculture Research Council.
- Submitted more than six projects to various funding agencies.
- Won eight travel grants to present the research work internationally.
- Won 2 NRPU research grants worth 3.5 and 3.1 million respectively

Email: zoology@gcuf.edu.pk

Vision

To align multidisciplinary approaches towards wide areas of biological sciences, the department strives to be a centre of excellence in teaching as well as in diverse areas of research to promote knowledge, skills and expertise in students required to serve the society as educators, University/College teachers, research scientists and administrators.

Mission

To meet the dire needs of coming decades, the Department of Zoology is committed to impart most recent and updated education to students, to deliver society-oriented and need-based research, to promote academia-industry linkage, to hold regular seminars by invited speakers and subject specialists for the scientific grooming of students and faculty and to develop a collaboration both at national and international levels.

Introduction

Department of Zoology was established in 1989 for the teaching of graduate and post graduate courses affiliated with University of the Punjab, Lahore, then took a mature turn after the up-gradation of Govt. College Faisalabad as Govt. College University Faisalabad in 2002. Later on launching of MPhil, PhD and Honors programs added to its status and it has come forth as one of the academically sound Department of the country. The high profile motivated faculty loaded with initiative and drive is key

strength of the Department. The fully equipped laboratories, well-furnished class rooms and updated spacious library provide the best possible facilities to the students in their academic pursuits. All the faculty members under the dynamic leadership of Prof. Dr. Tayyaba Sultana are striving hard and exercising their potentials to the maximum extent focusing the activity based learning. University industry linkage program for the joint research ventures have been established. For this purpose the Department has established a linkage through signing MoUs with Newcastle University UK, WASA, Punjab Fisheries Department and University sains Malaysia an objective of sharing research facilities for educational and career development of the students coherent with professional requirements. The Department believes in its uplifting at world recognized level through imparting outstanding teaching and research by awarding degree in academic programs of BS, MSc, MPhil and PhD in Zoology. The department has recruited foreign qualified PhD faculty members to broaden the teaching and research horizon to face the modern challenges in the field of Life Sciences. Highly equipped labs of different fields such as Entomology, Paleontology, Tissue Culture, Fish nutrition, Biochemistry, Wildlife, Genetics, Molecular biology and Research lab have been established to extend its infrastructure. Department has successfully completed the research projects under JHELP-II and INSPIRE Program (British council-Higher Education Commission funded projects) and its two extension programs SPEKE and TNE. Moreover various other projects funded by Pakistan Science Foundation (PSF), Higher Education Commission NRP, TWAS-

Prof. Dr. Abid Rashid

Professor Dr Abid Rashid has a unique academic record. He did his MBBS from PMC and FCPS from College of Physician & Surgeon . He did PhD in Clinical Medicine & Surgery from U.A.F. He served as a Professor of Surgery in medical college , (U.H.S) for 12 years and trained undergraduate & postgraduate students. He is leading the Faculty of Medical Sciences. He trained students of BS, M.Phil & PhD. He wrote books regarding surgical problems & editor journal of Medical & biological sciences. He is now leading project of university medical college. He has vast experience of managing emergency medical services .

College of Allied Health Professionals

Phone: 041-9201129
Email: cahp@gcuf.edu.pk

Vision:

To contribute to the field of Medical Sciences through producing skillful, ethical, and compassionate Allied Health Professionals with specialized postgraduate qualifications as there are very few options of relevant postgraduate degrees in Pakistan.

Mission:

Our primary objective is to train the Allied Health Professionals dedicated to provide the best healthcare services for the patient. We are trying to enable them to focus on high-quality research as well that extends beyond allied health sciences to all scientific disciplines.

Introduction:

College of Allied Health professionals was established under the flagship of Directorate of Medical Sciences at Government College University, Faisalabad, Pakistan in 2012. We offer 4-Year undergraduate degree programs in the field of Medical Laboratory Technology (MLT), Radiography and Imaging Technology (RIT), and Operation Theatre Technology (OTT). The College of Allied Health professionals with its highly dedicated and experienced faculty members continue to maintain and cultivate its links with the hospitals and healthcare settings within the country. For students' professional training college has signed MoU's with hospitals i.e. National Hospital, Faisalabad, Suraya Majeed Hospital, Faisalabad, and Faisal Hospital, Faisalabad, for students training and professional exposure.

Department of Physical Therapy

Vision:

To be a leading College in transformative and innovative education for Rehabilitation (health) professionals, guided by National imperatives and a strong commitment to socially responsive education. We will strive for excellence in professional and teaching excellence, as well as in the development of National and global linkages in education, research and development of global health related to the concern areas.

Mission

To developed quality health professionals that are practice-oriented, receptive and responsive to the rehabilitation related health care needs of the people of Pakistan and of world as a whole. This will be achieved by providing the highest standards of learning, teaching, and research and community engagement, underpinned by a commitment to creating space for students and staff to succeed.

Introduction

Physical Therapy is an essential segment of modern health care system. It is a "science of healing and of caring". It pertains to the clinical examination, evaluation, assessment, diagnosis and treatment of musculoskeletal, Neurological, Cardio-Cascular and Respiratory systems' functional disorders including symptoms of pain, edema and physiological, structural and psychosomatic ailments. It deals with methods of treatment based on movement, manual therapy, Physical agents, and therapeutics modalities to relieve the pain and other complications. Hence, Physical Therapy covers basic parameters of healing sciences i.e. Preventive, promotive, diagnostic, rehabilitative and curative.

Department of Orthotics & Prosthetics

Email: awaisbinanam@gcuf.edu.pk, Ph: 041-9201205

Vision

To provide every person who needs a prosthesis (an artificial limb) or an orthosis (an orthopedic brace) access to that device, and, furthermore, they have the rehabilitation services needed to facilitate optimal recovery and functional independence.

Mission

To provide rehabilitation care for people who need prosthetic and orthotic (P&O) services by developing, operating, or supporting P&O clinics; by networking with other NGO's; and by partnering individuals in need with service providers all over the world.

Introduction

Rehabilitation of persons with loco-motor disabilities or neuromuscular disorder is a team work, where Centre of attention is the person with disabilities. The team usually comprises of the Physical medicine and Rehabilitation Specialist (Physiatrist) who is usually the leader, Prosthetist and Orthotist, Physiotherapist, Occupational therapist, Social worker and Rehabilitation Nurse. Depending upon the need, other professionals like Orthopedic Surgeons, engineer, psychologist, geriatrist and other related professionals are also included in the team. The role of Prosthetist and Orthotist is important. Prosthetists and orthotists deal with the assessment, diagnosis and management of the whole of the body. Prosthetists provide artificial limbs (protheses) to people who have all or part of a natural limb missing. Orthotists provide supportive braces and splints (orthoses) to people with various conditions of the limbs or spine.

Department of Eastern Medicine

Phone: 041-9200876
Email: muhammadakram@gcuf.edu.pk

Vision

To attain the highest level of glory and excellence in the field of Eastern Medicine through quality teaching and research to make this Department as model department for producing highly competent and skillful Clinicians to serve for the benefit of humanity and to contribute to the development of Nation

Mission

To provide the knowledge and infrastructure to develop Eastern Medicine. Department of Eastern Medicine aims to build capacity of the common people (society) and the professionals to understand Eastern Medicine. This mission of the Department of Eastern Medicine goes well together to execute advance studies and research.

Introduction

The Department of Eastern Medicine and Surgery was established in 2013 at directorate of Medical Sciences, with a mandate to carry teaching and research on various aspects of modern as well as alternative medicine, suggesting measures for the conservation and improvement of population health by treatment and cure for the ailments and complications, especially focusing on utilization of local flora for alternative treatment. The department is offering graduate degree of BEMS in Eastern Medicine and surgery. The degree is approved from Higher Education Commission. The faculty members of this department have published more than 80 research papers (as senior author or co-author) during the last five years. An extensive scheme of studies (containing more than 59 graduate level courses in ten semesters) has been developed and approved for graduate degree program in the field of Eastern Medicine and Surgery, to cope up with whole medical fraternity, all major aspects of modern and alternative medicine are included, such as Anatomy, Physiology, Biochemistry, Clinical methods and therapeutics, Pathology, Community medicine, Pharmacology, Pharmacognosy, Principles of Eastern medicine,

Gynaecology and Obstetrics, Clinical Psychology and Psychiatry, Ophthalmology and ENT, Pediatrics etc. A number of latest books on the subject of Eastern Medicine and Surgery have been purchased and placed in the departmental library for ready reference to the students. In addition, students are encouraged to get electronic copies of latest research papers related their area of research by contacting relevant authors, institutions and publishers etc.

Faculty

Dr. Muhammad Akram

Associate Professor/Chairperson
PhD (HU)

Specialization: Clinical trials of herbal formulation in gouty arthritis & biological study of medicinal plants

Dr. Syed Muhammad Ali Shah

Assistant Professor
PhD (HU)

Specialization: Enzyme inhibition study by medicinal plants, Clinical Comparative study of herbal formulation, Antioxidant activity by medicinal plants

Dr. Sultan Ayaz

Assistant Professor
PhD (HU)

Specialization: Pre-clinical, Clinical and Post Clinical study of herbal formulations

Dr. Sabira Sultana

Assistant Professor (OPS)
PhD (HU)

Specialization: Clinical evaluation of herbal medicine and clinical studies

Programs Offered

1. Bachelor of Eastern Medicine
2. MPhil Phytomedicine
3. PhD Eastern Medicine

Chairman: Dr. Muhammad Akram

Mr. Muhammad Riaz ur Rehman

Lecturer

PhD (Scholar)

Specialization: Therapeutics, Comparative clinical study on obesity, Formulation and evaluation of herbal combinations

Mr. Hamad Ahmed

Department of Public Health

Vision

To be a leading College in transformative and innovative education in the field of Public Health, guided by National imperatives and a strong commitment to socially responsive education. We will strive for excellence in professional and teaching excellence, as well as in the development of National and global linkages in disease prevention, health education, medical research and development of global health related to the concern areas.

Mission

To bring a qualitative and quantitative revolution in medical education by providing an environment geared towards promoting research and academic culture in order to improve the existing healthcare system.

Introduction

Public Health Science is a multidisciplinary field that has changed over the years. However, an effective public health

system is as urgent as it has ever been. A public health Professional receives education and training in a wide range of disciplines but aim at improving health through a population focus. Public Health education and training not only includes the five long-recognized core components of public health (i.e., epidemiology, biostatistics, environmental health, health services administration and social and behavioral sciences) but new areas are also considered these days as essentials of public health: disease-control, reproductive and child health, informatics, genomics, communication, cultural and social diversity, community-based participatory research, policy and law, global health and ethics. Public health professionals' education and preparedness should be of concern to everyone for this will improve the health of the populations.

Programs Offered

1. BS Human Nutrition & Dietetics
2. MS Human Nutrition & Dietetics
3. Ph.D Human Nutrition & Dietetics

Chairperson: Dr. Mahr un Nisa

Vision & Mission

To produce high caliber graduates in the field of Nutrition who will be well equipped through the training they receive, to support the rapid changes in the field of Nutritional Sciences and playing key role in the economic development of Pakistan. This vision is pursued in par with core values of the University which are integrity, excellence, teamwork, discipline and dedication to work. Poor nutritional indicators for Pakistan demand some initiatives to uplift the nutritional status and initiation of Human Nutrition and Dietetics degree is important mile stone in this context. This department is not only producing skilled nutritionist but also enhances the awareness about different nutrition related issues that ultimately will uplift the nutritional status of the country

Introcucon

The The Department of Nutritional Sciences at Government College University Faisalabad was established in 2020. The magnificent faculty, state-of-the-art building, laboratory facilities, and friendly dedicated staff members make the Department a pleasant place to study and conduct research. Recently the Department of Nutritional Sciences has signed two MOUs one with World Poultry Science Association (WPSA) and second with Association for Bio risk Management Pakistan (ABM), to facilitate the research activities and job placement of passed out students.

Objectives

- To produce competent Nutritionists with adequate scientific background to meet the needs of public and private sector
- To provide professional leadership, services and outreach activities in the major areas of Nutritional Sciences
- To resolve issues oriented in the field of Nutrition
- To meet the training needs of public and private sector
- To produce competent nutritionists and Dietitians for different organizations

Prof. Dr. Shazia Anwer Bukhari

Ph: 041-9201036

Email: shaziabukhari@gcuf.edu.pk

Prof. Dr. Shazia Anwer Bukhari is a renowned, internationally acknowledged name in the field of biosciences. Prof. Bukhari did her PhD in Metabolic Disorders from the University of Punjab Lahore and she has an administrative, teaching, research experience spanning over twenty years. She has been working on exploration of indigenous flora for the treatment of various diseases including diabetes, hypertension, various cancers, obesity, metabolic syndrome, based on understandings of the mechanisms underlying the successful interactions between plant components and the diseases. Prof. Bukhari is an HEC approved supervisor and awardee of projects funded by different agencies including HEC and PHEC (Pak). She has several international and national research projects on her credit. She has attended more than ten international conferences in USA, Egypt, Turkey, and Korea. Prof. Bukhari has published over 150 articles in high impact science journals. Prof. Bukhari is the awardee of Dr. Muhammad Asgher Gold Medal-2018. With an academic experience of more than twenty years, she enjoys a strong research outlook with many PhD and MPhil scholars to her credit.

Programs Offered

1. Doctor of Pharmacy (Pharm.D)
2. MPhil and PhD Pharmacology
3. MPhil and PhD Pharmaceutics
4. MPhil and PhD Pharmaceutical Chemistry
5. MPhil Pharmacy Practice

Vision

Faculty of Pharmaceutical Sciences is a national model for excellence in pharmacy education, research and services by providing contemporary curriculum, evidence based practice and state of the art research facilities to the students.

Mission

To develop future pharmacist who could better lead as educationist, regulatory affairs manager, researcher, industrial pharmacist, community, hospital and clinical practitioner in Pakistan and beyond.

Introduction

Pharmacy is a lifesaving healthcare profession. In recent times, paradigm shift in the national and international healthcare systems have fuelled desire to upgrade the medical services in a modern healthcare system. This concept has also revolutionized the service providing approach of the pharmacy profession which has now developed into a multi-disciplinary profession. Currently, due to various health related issues there is need to develop new potent synthetic and biotech drugs as well as new drug delivery systems. This has substantially shifted the responsibility of pharmacists towards appropriate use of modern medicines so as to ensure optimum drug therapy and protecting the public from associated adverse drug reactions. It is therefore necessary to prepare and groom pharmacists for future professional responsibilities and challenges. The Department of Pharmacy was established in the GC University Faisalabad in the year 2005. It was upgraded to College of Pharmacy in 2010

and Faculty of Pharmaceutical Sciences in 2014. The Faculty of Pharmaceutical Sciences is offering Pharm.D (5 years), MPhil and / or PhD in Pharmacology, Pharmaceutics, Pharmaceutical Chemistry and Pharmacy Practice degree programs.

Objectives

- Provide quality education to students, who shall meet pharmaceutical and clinical needs of society and the globe.
- Cultivate a conducive environment where faculty and students can carry out studies and research activities.
- Develop competent pharmacists who would actively participate in healthcare related activities in Pakistan and worldwide.
- Understand how quality medicines are synthesized, developed, manufactured and delivered to patients in accordance with pharmaceutical knowledge, legislation and codes of professional conduct and practice.

Future Plans

In future, we are planning to start MPhil/ PhD in Pharmacognosy and PhD in Pharmacy Practice.

* The curriculum is as per guidelines of Pharmacy Council of Pakistan given in the year of 2013.

Vision

Sustainable state-of-the-art teaching and research facilities in pharmacology to address complex human diseases and to develop ethical clinical pharmacologists.

Mission

To develop and train future pharmacologists in the field of gastrointestinal, cardiovascular, respiratory, endocrine, neuro, inflammo and ethnopharmacology by providing evidence-based curriculum and enabling learning environment.

Introduction

Pharmacology is an essential element of Pharmacy, Medicine, Dentistry and allied health care disciplines. Department of Pharmacology was established as an independent entity in 2014 under the umbrella of Faculty of Pharmaceutical Sciences. This discipline also covers Physiology, Pathology, Anatomy and Histology to understand physiological, anatomical description of the body and the pathophysiological basis of diseases for rationale drug classifications, therapeutic uses, pharmacodynamics, pharmacokinetics, adverse effects and important drug-drug interactions. Department of Pharmacology is aimed to promote conducive learning environment, team work culture, ethical behavior and interdisciplinary research approach to address complex health related issues.

Department of Pharmaceutics

Phone: 041-9201036

Email: akhtar.rasul@gcuf.edu.pk

Vision

Department of Pharmaceutics will nurture future formulation scientists to integrate the multiple approaches of pharmaceutics in developing novel dosage forms and providing solution to the pharmaceutical industry to achieve the goals of sustainable development.

Mission

To develop the character and skills in our professional and graduate students, necessary for the roles of the pharmaceutical industry, research & development, and betterment of health sector.

Introduction

Pharmaceutics is major discipline of pharmacy profession which deals with dosage form development and relationships between drug formulation, delivery, disposition and their clinical responses. Department of Pharmaceutics was established in 2014 and since then committed to provide quality education and research at under and postgraduate level. Most of the faculty members of the department are PhD or pursuing their doctoral studies. We are actively involved in research and offering master and doctoral programs. Our faculty members have number of research projects and facilities to carry out quality research.

Vision

Department of Pharmaceutical Chemistry endeavors to be a recognized model for graduating students through innovative ideas and recent trends in the field of pharmaceutical chemistry along with drug design, and their development, to compete in and contribute to achieve sustainable development goals.

Mission

To produce world class pharmaceutical chemists with competencies to meet the national pharmaceutical challenges with technical and scientific skills for appropriate drug discovery and development.

Introduction

Pharmaceutical chemistry is one of the major disciplines of pharmaceutical sciences which deals with all chemical aspects of drugs and natural products, such as their structure, synthesis, isolation, and their structural activity in relationship with pharmacological activity. Department of Pharmaceutical Chemistry was established in 2014 and since then committed to provide quality education and research to its graduates which is based on the latest and most advanced trends in different fields of pharmaceutical chemistry.

Vision

The Department of Pharmacy Practice at GCUF seeks to be a leader in pharmacy education, innovative basic and applied research, novel medication management models, and delivery of exemplary patient care.

Mission

Enabling students to be a part of healthcare team as medicine experts by developing necessary skills for patient care, clinical research and pharmacy leaders.

Introduction

Established in 2014, Pharmacy Practice is the major discipline of Pharm-D program which involves developing the professional roles of pharmacists in the healthcare system (hospitals, community pharmacies and health regulatory authorities). Clinical Pharmacy is a key area of the Pharmacy Practice in which pharmacist provides patient care through medication optimization and promotes health, and disease prevention. In future PhD in Pharmacy Practice will be offered.

Department of Pharmacognosy

Phone: 041-9201036
Email: ajmalshah@gcuf.edu.pk

Vision

To be renowned and prestigious department at national and international level by offering high quality education and research in the preparation, standardization, commercialization, effective and safe use of herbal medicines and natural products.

Mission

Department of Pharmacognosy is determined to provide quality education and research. It is also deemed to promote safe and efficacious use of herbal medicines and nutraceuticals through innovative research and phytopharmaceutical development based on local resources.

Introduction

Pharmacognosy is one of the major disciplines of pharmacy that deals with the drugs obtained from natural sources such as plants, animals, minerals and other natural sources. Pakistan is rich in natural fauna and flora and there is dire need to explore their medicinal potential to cure different diseases with minimum side effects. Department of Pharmacognosy was established in 2014 and since we are committed to provide quality education and research. In future we are planning to start MPhil and PhD in Pharmacognosy.

Prof. Dr. Nasir Amin has a prosperous academic and research career in Physics at University of Agriculture Faisalabad and Government College University Faisalabad spanning over three decades. Prof. Amin earned his PhD from Quid-e-Azam University Islamabad and a Postdoctoral Fellowship from University of California - USA. He has completed several research projects including the prestigious Presidential Young Innovator award for his pioneering work on Laser induced Breakdown Spectroscopy. He has won the Pakistan Council for Science and Technology's Research Productivity Award several times, while the Pakistan Academy of Sciences honored him with the PAS Gold Medal in 2010 in recognition of his outstanding research contributions. He has authored more than 150 impact factor papers in international journals, Organized number of International and National Conferences, established the Nano Materials & Biosensing research labs and has also supervised a large number of PhD, MPhil and M.Sc students. Prof. Dr. Nasir Amin is currently Dean Faculty of the Physical Sciences and convening various administrative and statutory bodies of the University with his pivotal role in important academic forums of the University.

Chairperson: Dr. Fazal-ur-Rehman

Vision

To integrate modern teaching and learning methods in the curriculum to provide training to students in interdisciplinary programmes for the academics and industries.

Mission

To provide nurturing and conducive environment for imparting skill in basic and applied chemistry. The Department of Applied chemistry is responding to the needs of chemical industries by preparing skilled manpower.

Introduction

Government College University is situated in the center of Faisalabad which is the hub of the textile industry because of its vast industrial network and textile based structure. More than 500 textile units in the city are utilizing chemistry to manufacture value added products according to world standards. In addition to textile sector, Faisalabad is also well known for different industries; such as paints, pigments, dyes, sugar, fertilizer, pharmaceutical, foods, oils and fats, soaps and detergents. Keeping in view the industrial need for highly qualified, skilled, visionary and trained manpower that could meet international standards, the Department of Applied Chemistry was established at the Government College University Faisalabad in 2004 to meet industrial challenges. The faculty of the Department is strolling hard with full devotion and dedication to produce dynamic students of high calibre with clear cut aims and market oriented objectives. The idea behind these activities is to train students as entrepreneurs for creating the opportunity rather than to look for the jobs.

Objectives

- To produce applied chemists who can efficiently manage the working of industries and be able to motivate and adopt new technologies to meet the international standards
- To produce students who are confident of applying the knowledge of chemistry and skills which they acquire in understanding the problems of the local industry and the world at large. Thereby making useful contributions towards resolving industry linked problems.
- To produce chemists who can work as quality control managers (from raw material and intermediate product to final product) in every sector of the industry.
- To provide skill in handling chemicals, managing chemical laboratories and scientific instruments.

Achievements

Department of Applied Chemistry has established working research collaboration with industry such as paints, pigments, dyes, sugar, fertilizer, pharmaceutical, foods, oils and fats, soaps and detergents. All faculty members of Applied Chemistry are working on different projects funded by HEC out of these eight are NRPU research grants. Moreover, our faculty members have also won research grants from international research organizations such as ISF, ISESCO and UNESCO/IUPAC project for green chemistry. The department of Applied Chemistry organizes International conferences, workshops, symposia and hand on trainings for students, staff and faculty members wherein eminent scientists of international fame are often invited for delivering instructions. The Department of Applied Chemistry is not only progressing in research activities but also has success stories in

Business and won prizes in Business Incubation Centre, other interdepartmental and sports competitions. The Department of Applied Chemistry is also enhancing its activities by launching different short courses and Associate Degree Programs which are designed in collaboration with the Chamber of Commerce and Industries of Faisalabad. The different areas are: Textile Industries

- Natural Product Isolation
- Natural and Synthetic Polymers
- Polymer composite materials
- Paints and Coatings
- Adhesives and Sealants
- Pharmaceuticals and Nutraceuticals
- Natural and Synthetic Rubber
- Dyes and Pigments
- Glass/ceramics
- Oils and Fats Industries

*Core courses for MPhil program; the students will have to take four core courses as and when offered by the department.

*PhD. Students will take two core courses if they have not studied in MPhil or previous studies.

*STA-795 "Statistics For Research" is a compulsory course for the students of MPhil and PhD. If student has studied in MPhil; will be waived to study this course

Programs Offered

1. BS Chemistry
2. MSc Chemistry
3. MPhil (Analytical Chemistry, Inorganic Chemistry, Organic Chemistry, Physical Chemistry)
4. PhD Chemistry

Chairman: Dr. Muhammad Zubair
Associate Professor

Vision

To promote the quality research in the various branches of chemistry to ensure a viable and practical solution to all the problems in the respective areas.

Mission

To the advancement of highest level of theoretical and practical knowledge of chemistry, the department pledges to train Chemists capable of making significant contribution in the areas of medicine, pharmacy, petroleum and related fields.

Introduction

Twentyth century is the era of modern chemistry. Between 1901 to 2019, 111 times Nobel Prize in chemistry has been awarded to 183 Nobel Laureates. Today chemistry is contributing to all walks of life. The researchers of chemistry have strong portfolio over past few decades contributing to vast range of topics from robotic cars to oil spills. The department of chemistry started with the establishment of the Government College University Faisalabad in 2002. It is situated in the new campus in a completely purposeful building decorated with the modern lecture rooms and theaters as well as fully furnishes general labs for all the specializations offered like Organic, Inorganic, Analytical and Physical Chemistry. The department is hosting more than 900 students of graduation, master, M.Phil. and Ph.D. The department is The curriculum of all offered degree is in coherence to the guidelines of Higher Education Commission (HEC) of Pakistan. New courses are introduced time to time in order to acquaint our student with the recent developments in

the subject. The major focus of the department is preparing our students to meet the requirements of international and colonial expectations. Our alumni are serving around the Pakistan and across the globe. Our graduates are catering the requirements of industry, public and private research organization and as entrepreneurs.

The research activities are also flourishing in the department with the large number of ongoing research projects funded by the national and international funding agencies. There are specialized research labs for synthesis, characterizations, material sciences, drug and therapeutic discoveries, dyes and fabricating, nanomaterials and polymer research, waste water treatment, solution chemistry and computational chemistry. All these labs are publishing in the esteemed peer review journals and have research collaborations around the globe. The research project are aimed to meet the global challenges and especially to the community challenges.

Faculty

Dr. Muhammad Kaleem Khan Khosa

Professor

PhD (QAU),

Post Doc. (Cambridge University UK)

Specialization: Material Chemistry, Organo Transition Metal Chemistry

Dr. Khalid Mahmood Zia

Associate Professor

PhD (UAF), BIMS (UQ Australia)

Specialization: Physical Chemistry / Polymer chemistry/Textile Chemistry/Bionanocomposites

**Dr. Muhammad Zubair**

Associate Professor
PhD (HEJ),
Post Doc. (UW Canada)
Specialization: Organic Chemistry

Dr. Muhammad Asghar Jamal

Associate Professor
PhD (PU)
Specialization: Physical Chemistry/Solution Chemistry

Dr. Abdullah Ijaz Hussain

Associate Professor

Scheme of Studies BS Chemistry

Semester 1		
CHM-301	Principles of Inorganic Chemistry	4(3 - 1)
ENG-321	Functional English	3(3 - 0)
CSI-321	Introduction to Computing Applications	3(2 - 1)
MTH-321	Algebra and Trigonometry	3(3 - 0)
BOT-303	Functional Biology-I	3(2 - 1)
PHY-321	Fundamentals of Mechanics	3(2 - 1)
*ISL-311	Translation of The Holy Quran -I	1(1-0)
Students with pre-engineering background will take functional Biology-I and students with premedical will take Algebra and Trigonometry		
Semester 2		
CHM-302	Principles of Organic Chemistry	4(3 - 1)
ENG-322	English Comprehension and Composition	3(3 - 0)
CSI-422	Computer Applications and Web-II	3(3 - 0)
ISL-321	Islamic Study/ Ethics	2(2 - 0)
MTH-322	Introduction to Calculus	3(3 - 0)
ZOL-306	Principles of Animal Life	3(2 - 1)
PHY-322	Fundamentals of Electricity and Magnetism	3(2 - 1)
Students with pre-engineering background will take Principles of Animal Life and students with premedical will take Introduction to Calculus		

Semester 3		
CHM-401	Principles of Physical Chemistry	4(3 - 1)
ENG-421	Communications Skills	3(3 - 0)
PST-421	Pakistan Studies	2(2 - 0)
CHM-403	Environmental Chemistry	3(3 - 0)
ZOL-405	Diversity of Invertebrates and Vertebrate	3(2 - 1)
BOT-403	Principles of Cell Biology, Genetics and Evolution	3(2 - 1)
*ISL-411	Translation of The Holy Quran -II	1(1-0)
Semester 4		
CHM-402	Principles of Analytical Chemistry	4(3 - 1)
ENG-422	Technical Writing	3(3 - 0)
CHM-404	Chemistry of Biomolecules	3(3 - 0)

Vision

To ensure that the students take maximum advantage of the modern computer sciences to solve a wide range of complex scientific, technological and social problems.

Mission

To provide exemplary education and training to our students in the field of computer so that they productively contribute to academia and industry.

Introduction

The Department of Computer Science is one of the most prominent and oldest centers of computer education in Faisalabad city and was established as a separate department by offering ICS program in 1999. The progress journey of the department continued, and it offered BS (CS) program in 2001 and MCS program in 2004.

The department provides excellent computing facilities and ensures the enhancement of practical knowledge of students by facilitating them to learning. The Computer Science Department provides a comprehensive range of facilities necessary for computer use and a library of programs and packages for solving scientific, engineering, commercial and social problems.

Laboratories

The department is equipped with three state of the art computer labs with the latest Pentium machines. These laboratories which are accessible to all students and teachers of Computer Science Department are linked through the state of the art network environment for retrieving information.

The following laboratories have been set up:

- Database Design Lab
- Software Development Lab

A team of excellent and dedicated developers works untiringly hard to develop, design and update wide range of software that meets the university requirements in addition to the market demands as well.

Faculty

Dr. Muhammad Ramzan Talib

Professor / Chairman

PhD (Computer Science)

Specialization: Databases and Information Systems

Dr. Muhammad Kashif Hanif

Assistant Professor

PhD (Computer Science)

Specialization: GPU Computing, Algorithm Analysis

Muhammad Umer Sarwar

Assistant Professor

Incharge: **Dr. Fazl ul Haq**

Vision

We are committed to transform our discipline to applied realms in all our degree programs through introducing advanced courses and technology, besides strengthening our theoretical understanding of geographical processes and human-nature interactions.

Mission

To achieve excellence in spatial sciences through making significant contributions in society by 1) Providing educators with effective and relevant professional development, support and materials, focusing on geographic concepts contents and pedagogy. 2) Applying geographic science to societal and environmental issues in state, the nation and global community. 3). By training students to solve spatial problem by using geo-spatial techniques.

Introduction

The Department of Geography is focusing on its two distinct domains: Human Geography and Physical Geography. Geographic Information System, Remote Sensing, Digital Cartography and Spatial Analysis are the advanced technological sides of the discipline. Besides understanding the physical earth processes, we also focus on social issues in a spatial framework, which makes it unique from other social sciences.

Faculty

Dr. Fazl ul Haq

Assistant Professor/Incharge

PhD (University of Peshawar), M.Phil (University of Peshawar)
Specialization: Mountains Geography; Cryosphere and Hydrology; Climate Change, Natural Disaster Management.

Dr. Kashif Mahmood

Assistant Professor

Ph.D (University of Orleans, France)

Specialization: Urban Transition, Urban sprawl, Housing, Fertility Transition, Sustainable development , Household surveys, women empowerment

Dr. Liaqat Ali Waseem (Dr rer.nat)

Assistant Professor (TTS)

Ph.D University of Salzburg Austria.

Specialization: Urban & Landscape Ecology, Urban/ Peri- Urban Agriculture

Dr. Syed Ali Asad Naqvi

Assistant Professor (TTS)

Ph.D Geography University of Karachi, Karachi

Specialization: Medical Geography; Environmental Geography;

Dr. Shoaib Khalid

Assistant Professor (OPS),

Ph.D Nanjing University , China

Specialization: Geography of Crime , GIS and Remote Sensing

Dr. Nusrat Parveen

Assistant Professor (OPS)

Department of Information Technology

Email: it@gcuf.edu.pk

Programs Offered

1. BS Information Technology
2. MS Information Technology

Chairperson: **Dr. Mariam Rehman**

Vision

To establish an effective operational environment containing advanced technological infrastructure, industry collaboration and research culture to deliver quality services to the students in terms of teaching, market exposure and research respectively.

Mission

To technically equipped students by providing support for academic excellence through teaching and promoting research culture to meet the emerging needs of the students.

Introduction

The College of Computer Science & Information Studies was one of the most prominent and oldest centers of computer education in Faisalabad. The center was established as a separate department by offering ICS program in 1999. The departmental progress journey continued, and offered BS (CS) program in 2001, MCS program in 2004 and MS (CS) program in 2009. BS (IT) was started as a specialized area according to the guidelines of Higher Education Commission (HEC). Later, Department of Information Technology became a separate department focusing on specialized areas of Information technology. This journey continued, and department offered MS (IT) program in 2014. The department provides excellent computing facilities and ensure the enhancement of practical knowledge to the students. Department of Information Technology provides a comprehensive range of facilities, which are necessary to

perform computing tasks and to solve scientific, engineering, commercial and social problems. The department is equipped with laboratories having advanced technology computers. These laboratories are accessible for all students and teachers.

Department of Mathematics

Phone: 041-9200814
Email: math@gcuf.edu.pk

Vision

Mathematics develops computational skills, critical thinking, and problem-solving skills. The theory, discipline, and techniques taught in mathematics courses are especially important in today's society. The faculty of the Department of Mathematics recognizes this and strives to ensure that the student learner obtains this knowledge. At the same time, the faculty contributes to the discipline by fundamental research in pure and applied mathematics, statistics, and mathematics education.

Mission

To Develop the courses to ensure that the student learner will be able to contribute to today's society; and will obtain abilities to critically assess numerical and graphical information; learn to formulate strategies for solving problems; and acknowledge the importance of being intellectually curious throughout their adult lives. The Department, through its faculty, will continue to contribute to the body of knowledge of the discipline, whether in traditional research, applied research, or research in the teaching of Mathematics.

Introduction

Established in 1963 the Department of Mathematics is one of the oldest departments of this institution. It has rich history of excellence and performance and produced renowned mathematicians who are serving in various organizations with distinction and credit.

At the University level this department is now running BS, MSc, M. Phil and PhD programs in the subject of Mathematics.

The Department has produced outstanding students who

are serving in academic institutions, Pakistan Atomic Energy Commission, Banks and Industries, and in particular, the Aerospace, Oil and Electronic Industry etc. The mission of the Department is to enhance the research skills of the creative minds through active involvement in the research-oriented activities.

The Department has qualified and experienced teachers who are devotedly inculcating in the students the zeal, spirit and determination necessary to compete with the new scientific challenges in every walk of life.

Goals

The Department will offer courses that:

- Build and enhance computational skills necessary in today's society and develop the students' ability to critically interpret numerical and graphical data.
- Develop and enhance the students' problem solving skills.
- Encourage and reinforce the critical thinking skills of the students.
- Develop the students' ability to intelligently communicate mathematical results in both written and oral format.
- Re-institute the Masters in Mathematics, offering concentrations in Applied Mathematics and Teaching of Mathematics.
- Provide the faculty with the necessary time and resources to enhance their professional endeavors in teaching, in research, and in service.
- Provide an environment which will help all faculty and staff to achieve their professional goals.

Programs Offered

1. BS Mathematics
2. MSc Mathematics
3. MPhil Mathematics
4. PhD Mathematics

Chairman: Prof. Dr. Muhammad Nawaz Naem

Faculty

Prof. Dr. Muhammad Nawaz Naeem

Professor / Chairman (HEC approved Supervisor)
PhD (UK)
Specialization: Vibrations of Cylindrical Shells

Dr. Muhammad Imran

Associate Professor (HEC approved Supervisor)
PhD (GCU, Lahore)
Specialization: Fluid Mechanics, PDEs, Numerical Simulations

Dr. Mohsan Raza

Associate Professor (HEC approved Supervisor)
PhD (COMSATS, Islamabad)
Specialization: Geometric Function Theory

Dr. M. Ahsan Binyamin

Associate Professor (HEC approved Supervisor)
PhD (GCU, Lahore)
Specialization: Commutative Algebra & Singularity Theory

Dr. Saima Parveen

Assistant Professor
PhD (GCU, Lahore)
Postdoc (Freie Universität Berlin, Germany)
Specialization: Low dimensional topology, Combinatorics, Fractional Calculus

Dr. Nazeran Idrees

Assistant Professor
PhD (GCU, Lahore)
Specialization: Commutative Algebra

Dr. Awais Gul Khan

Assistant Professor
PhD (COMSATS University Islamabad)
Specialization: Variational Inequalities, Optimization

Dr. Muhammad Umer Shuaib

Assistant Professor (HEC approved Supervisor)
M. Phil (GCU, Lahore)
PhD (QAU, Islamabad)
Specialization: Group Theory and its Generalizations

Dr. Muhammad Hussan Mahmood

Assistant Professor
PhD (COMSATS University Islamabad)
Specialization: Fluid Mechanics, Symmetry Analysis

Dr. Muhammad Uzair Awan

Assistant Professor (HEC approved Supervisor)
PhD (COMSATS University Islamabad)
Specialization: Convex Analysis, Mathematical Inequalities

Dr. Khadija Tul Kubra

Assistant Professor
PhD (Massey University, Auckland, New Zealand)
Specialization: Fluid Mechanics, Numerical Simulation, Mathematical Modelling

Dr. Akhtar Ali

Assistant Professor (HEC approved Supervisor)
PhD (University technology, Malaysia)
Specialization: Computational mathematics

Dr. Muhammad Kashif Iqbal

Assistant Professor (HEC approved Supervisor)
PhD (NCBA&E, Lahore)
Specialization: Computational Mathematics

Dr. Saqib Mazher Qurashi

Assistant Professor (HEC approved Supervisor)
PhD (QAU, Islamabad)
Specialization: Applications of Fuzzy set theory, Soft set theory

Dr. Shazia Kanwal

Assistant Professor
PhD (COMSATS University, Islamabad)
Specialization: Fixed Point Theory and Applications, Non- linear Analysis

Dr. Ayesha Iqbal

Lecturer
PhD (COMSATS University, Islamabad)
Specialization: Cosmolgy/General Relativity

Dr. Sehar Asghar

Assistant Professor
PhD: (Govt. College University, Faisalabad)
Specialization: Nanutubes/Numerical Solutions of Differential equation

Mrs. Asma Mahmood

Lecturer (On study leave for Ph.D)
M.Phil (GCUF)
Specialization: Fuzzy set theory, Decision-making

Mrs. Hadia Ali

Lecturer (On study leave for Ph.D)
M.Phil (GCUF)
Specialization: Differential Equations and differential transformations methods

Dr. Naveed Anjum

Lecturer
PhD (Soochow University, China)
Specialization: Nano/Microelectromechanical Systems

Mrs. Samaira Naz

Lecturer (On study leave for Ph.D)
M.Phil (GCUF)
Specialization: Differential Equations

Dr. Atifa Latif

Lecturer
M.Phil (GCUF)
Specialization: Symmetries of Differential Equations

Dr. Saima Rasheed

Lecturer
PhD (Comsats University Islamabad)
Specialization: Integral inequalities, Fractional Calculus, Fuzzy Set theory

Mrs. MubasharaWali

Lecturer (On study leave for Ph.D)
M.Phil (GCUF)
Specialization: Differential Equations

Mr. Syed Sheraz Asghar

Lecturer
M.Phil (GCUF)
Specialization: Graph Theory

Vision

To build up national reputation in Physics education and research and to become national leader in producing highly professional and motivated physicists.

Mission

To provide rigorous training in the scientific process and a firm scientific understanding of nature to foster critical thinking and to provide scientifically literate and liberally educated physicists. The primary functional aspects of our mission can be classified as:

- Preparing undergraduate and graduates for advanced studies and employment in education, research institutes and industry.
- Developing highly qualified physicists who can serve as major contributors to the scientific and technological literacy in theoretical and applied physics.
- Providing physics knowledge, experimental experience and training in analytical reasoning and critical thinking required as the basis for the students seeking advanced studies in physics.
- Polishing the expertise and competence in physics of our researchers/academic staff and to enable them to carry out advanced research in active areas of Physics as demanded by the 21st century.

Introduction

The Department of Physics is imparting quality education and research guidance to its students with the aim of serving the community at large. All the faculty members of the Department are striving ardously for achieving excellence in their profession and are utilizing all their potential to the maximum for uplifting the academic standards of the University. Currently, the department is offering undergraduate and postgraduate programs. In order to broaden and deepen the vision of its

students according to the needs of the 21st century, the Department of Physics is particularly focusing on activity-based learning. By establishing academic and research linkages with local as well as international institutions, the Department of Physics provides a conducive environment for the academic and professional development of its students. The recently organized national as well as international conferences, seminars, Webinars and workshops speak volume of the efforts the department has taken to ensure that its students are provided with an in-depth understanding of the field. Owing to the availability of a wide variety of specialized PhD staff, the Department offers research opportunities to students in condensed matter physics, plasma physics, health and medical physics, semiconductor materials, Laser spectroscopy, Nano technology and theoretical physics.

Faculty

Dr. Nasir Amin

Professor
PhD, Post Doctorate (USA)
Specialization: Laser Spectroscopy & Laser Matter Interaction

Dr. Muhammad Sharif

Professor / Chairperson
PhD
Specialization: Experimental Plasma Physics

Dr. Ijaz Ahmad Khan

Associate Professor
PhD, Post Doctorate (Singapore)
Specialization: Experimental Plasma Physics

Programs Offered

1. BS Physics
2. MSc Physics
3. MPhil Physics
4. MPhil Physics (Nanotechnology)
5. PhD Physics

Chairperson: Prof. Dr. Muhammad Sharif

Dr. Aamir Shahzad

Associate Professor

Department of Software Engineering

Email: se@gcuf.edu.pk

Vision

To educate the students to become research-oriented software engineers that are confident and meet the international standards.

Mission

To produce worthy graduates in the various disciplines of software engineering and to train them to apply the knowledge and skills of software engineering in the design, development, documentation and maintenance of software.

Introduction

The department of software engineering provides excellent computing facilities and ensures the enhancement of practical knowledge of students. The department provides a comprehensive range of facilities necessary for computer use and library of programs and packages for solving scientific, engineering, commercial and social problems. The department is equipped with computer labs having Pentium machines. These laboratories are accessible to all the students and teachers and also linked through the state of the art network environment for retrieving information. The department now exists and excels in the faculty of Physical Sciences.

The advancement in the field of software engineering by producing research contributions of international standards. The solution to the real-world problems concerning software and automation. The recognition of the department is at multiple levels due to its research and software development activities.

Department of Statistics

Email: stat@gcuf.edu.pk

Vision

To disseminate quality education and produce quality research in different areas of Statistics and to produce highly skilled professional, scholars and researchers equipped with adequate knowledge of Statistics to meet the contemporary and future challenges.

Mission

The mission of the Department of Statistics is to contribute to the overall objectives of the Government College University, Faisalabad and the Affiliated Colleges, Science, and the Arts through excellence in research and education in the Statistical Sciences and through service to the university community, statistical profession, and society at large.

The proliferation of quantitative information in society demands that we help to develop the next generation of statistics professionals while increasing the statistical literacy of our students and the frequency of collaboration with our colleagues. To meet these objectives, the mission of the Statistics Department is to:

- Deliver a high-quality Statistics program for our majors and minors that prepares them for either the workplace or further study in graduate programs;
- Offer service courses for the university that meet the needs of the various majors and enhance the statistical literacy of the students;
- Support continued growth of Statistics faculty members as teacher-scholars. To contribute to the theoretical and applied development of the field through scholarly research in core areas of statistical theory and probability

and publications in leading professional journals.

- To contribute to the development of new statistical methodology to address substantive problems and to promote the use of these methods through publications in both Statistics and subject-matter journals.
- To contribute to the advancement of science and technology through interdisciplinary research, jointly with scientists at the Government College University, Faisalabad and at other research institutions and develop a research culture in society in general.

Introduction

Statistical methods and the application of probability theory are essential to the understanding of data and underlying processes in a very wide variety of fields, including health sciences, economics and finance, social science, government, engineering, biological and physical sciences.

In Government College, Faisalabad the Department of Statistics was established in 1960. Initially intermediate and degree classes were started. In October, 2002 the college was upgraded to University and a 2 year Master degree program was launched in September, 2003. BS (Hons.) a 4 year degree program was launched in September, 2005; the Department took the initiative of launching the MPhil (Statistics) program in 2012; PhD (Statistics) has been launched in 2020. Currently 250 students are enrolled in different programs being offered by the Department of Statistics.

Statistical computations contribute as a major player to meet the demand of the students and requirements of extended research activities in the graduate and post graduate courses. Statistics

Programs Offered

1. BS Statistics
2. MSc Statistics
3. MPhil Statistics
4. PhD Statistics

Chairman: Dr. Tanvir Ahmad

is considerably more applied and vocational than many other courses. It aims to produce students who can immediately work as applied statisticians. Whereas all theoretical concepts are covered, the emphasis throughout is on applying and adapting it to real-life circumstances. The analysis of real data sets constitutes the core of the courses and pivotal role of the computer as a powerful tool in modern statistics is constantly emphasized throughout the programs being offered. Weekly assignments/practical work makes extensive use of standard statistical packages including Minitab, SPSS, EViews, R, Mathematica, Design Expert etc. The graduated students are employed in reputable public and private sector organizations like Federal and Provincial Bureaus of Statistics, National Universities, State Bank of Pakistan, Pharmaceutical Industries, Government offices, Commercial Banks, and many other firms and organizations.

Director: Dr. Faisal Maqbool Zahid

Vision

To achieve excellence at national and global level by substantially expanding the capacity to execute Data science research and education, industry collaborations, and the availability of state-of-the-art computational tools.

Mission

To provide and facilitate the highest quality data science education, research and industrial collaboration to achieve the national goals.

Introduction

Data science combines statistical methodology, computational science, and a wide range of application domains. Data science job-demand is estimated to rise enormously in the future. Keeping in view the growing importance of data science with every coming day, the university started this program. Our data science program offers strong preparation and training in Computer Science, Statistics, Inference, Machine Learning algorithms, Predictive Analysis, addressing big data challenges, and new technologies.

Laboratories/Facilities:

Foreign highly qualified faculty, Excellent infrastructure with healthy academic and research environment, availability of cutting-edge computational facilities (state-of-the-art computing labs equipped with latest machines and State-of-the-art Data Centre with high-end server machines and routers along with

the provision of cloud services, library equipped with a variety of books covering a wide range of classical books as well as the most recent books published with the latest developed techniques, Access to IEEE / ACM etc. journals / proceedings.

Vision

Institute of Arts and Sciences Chiniot Campus aspires to generate and enhance knowledge through continuous progressive efforts for the benefit of all stakeholders, especially University students.

Mission

- The mission of Institute of Arts and Sciences Chiniot Campus is to provide high quality and accessible education, creative endeavors, and meaningful scholarly experiences in pursuit of local and global contributions to knowledge;
- Offers a welcoming and rewarding academic and work environment for students, faculty, and staff; and
- Fosters innovative learning, community engagement, and critical and independent thought

Introduction

The summary for the establishment of a sub-campus – Government College University Faisalabad-at District Chiniot was approved by the Government of Punjab in 2015 with the vision that university should introduce different programs in different disciplines for the benefit of local masses. The summary of the project was presented before the Chief Minister by Higher Education Division and it was approved in 2018. The land which is allocated for the development of sub campus is 101 Kanals and 16 Marlas at Chak No.14 JB, Chiniot. It is 8 kilometers away from the city center.

The Worthy Vice Chancellor of GCUF Prof. Dr. Shahid Kamal along with other administrative staff visited the site of the campus on February, 2020. Now two academic blocks are under construction at the said site with the approved capital cost of Rs 1676.561 million by CDWP. Currently, the temporary building which is just 3 kilometers away from the city Chiniot is operational for the classes of running semesters.

The main objective of the campus is to provide high quality and accessible education to the students of District Chiniot who in order to get higher education used to go to other districts. Initially, BS programs in four subjects (Sociology, English, Mathematics, & BBA) are being offered in the Institute of Arts and Sciences, GCUF, Chiniot campus. We are planning to offer more BS programs in the near future.

Our Teaching Faculty of all the Departments- Sociology, English, Mathematics, & BBA- is highly qualified, experienced and enthusiastic, who will provide the highest quality learning environment for the greater wellbeing of our students and deliver an outstanding educational portfolio. In a short span of time, campus has made considerable progress in terms of

academic development, as a huge response from the students of Chiniot is seen during the enrolment campaign.

Vision

Institute of Arts and Sciences Hafizabad aspires to take the region forward by providing affordable quality education to all students. We are committed to deliver unparalleled life enhancing experiences that will help and transform students personally, socially and intellectually.

Mission

The Mission of Institute of Arts and Sciences Hafizabad is to effectively disseminate fundamental knowledge of social, moral and religious values. We will transmit advanced literary and scientific learning with innovative research and freedom of thought and expression.

Introduction

Government College University Faisalabad Sub Campus Hafizabad is situated in the district Hafizabad which is famous for its Agricultural Products and Power Looms. The campus was established in 2019. The Worthy Vice Chancellor of GCUF Prof. Dr. Shahid Kamal along with other administrative staff inaugurated the campus on 9th December, 2019. The main aim of the campus is to provide affordable quality education to the students of Hafizabad who in order to get higher education used to go to other districts. AL-ABBAS BHATTI Trust

AL-ABBAS Bhatti Trust was established purely for welfare intents. Al-Abbas trust, so far, rendered its endeavors in almost all walks of life. The Trust contributes financially for the marriages of girls in poor families, facilitated 4500 poor families for the immigration of their youth in abroad, provided network of free transport for students in the whole District. It provided scholarship grants and free higher education to the intelligent and position holders students. Free Ambulance and provision of free equipment in Government Hospitals is one of the chief marks of Al-Abbas Trust. The services of this trust went on and finally it sailed to the realization of LICCS.

Layyah Institute of Commerce and Computer sciences (LICCS) emerged on the jubilant day of independence i.e August 14, 1997. At the outset Diploma in Business Administration (DBA) and Bachelor in Commerce (B.Com) were launched in a rented building. Soon this institute achieved excellent results in education and attracted hundreds of students at a time. The educational quest went on and LICCS earned a distinct position in commerce, computer sciences, Law, Health and Physical education, Technology, Education, Science, and other related studies.

At present it is affiliated with Punjab Board of Technical Education Lahore, Board of Intermediate and secondary Education Dera Ghazi Khan, Bahauddin Zakariya University Multan, University of Sargodha, Allama Iqbal Open University, and Virtual University in some or the other fields of discipline. Approximately 3500 students (Girls and Boys) are currently enrolled in diverse programs. The pass out of LICCS are to the tune of 15000.

LICCS with division in to different campuses, is now LICCS group of Colleges. At present, it has its own three spacious campuses in prime location of Layyah city. LICCS group of colleges boasts of having 114 highly motivated and dedicated qualified staff in teaching and non-teaching field. Its transportation system is a hall mark providing free transport to the students within the radius of 50 KM.

LICCS group of colleges enjoys a series of distinctions in different fields of studies every year. The students are rewarded with Medals on countless occasions by the Boards and Universities as well for holding positions in different classes. The faculty and the Managing Director were rewarded Gold Medals in recognition of their services.

LICCS group of college is divided in to diverse Departments

1. Commerce
2. Technology
3. Science
4. Law
5. Education
6. Information Technology

Each department has an HOD who keeps in contact with CEC (Central Executive Committee) of the college and who is also responsible for the supervision/ evaluation of the concerned department. Policy making of the institute is in the hand of CEC to be delivered at the outset of each calendar year.

The placement department maintains the record of the pass out and keeps liaison with different departments and industry. This department facilitates the students in their job seeking. Lectures of different heads of departments are arranged to create the demand of the pass outs.

Vision

Aspire to develop leaders who can handle complex businesses, social and scientific environmental knowledge in our overcharging world. Empowering students to fulfill their academic and professional passions in the university. Creating an innovative connection between education, humanities, science, and technologies.

as well as physical growth. University's educational philosophy is to reconstruct the human thoughts in all its facets on the foundation of social moral and religious values. GCUF is designed to improve existing knowledge and practice in the field of business, social, and allied life sciences both in pure and applied form through innovative and creative approaches to offer the best possible services to the society and humanity at large and contributing throughout since its inception. GCUF aspires to experience an antiparallel education journey that is intellectually, socially, and personal transformation to the country's citizens. Our highly qualified and visionary faculty is always striving their best to improve the quality of life through education, innovation thereby contributing to endeavors to make Pakistan and this world a better place to live. A huge response of students during admission speaks about the deep involvement of academic staff towards their commitment.

Mission

The mission of Government College University Sahiwal Sub Campus is

- To educate the local and surrounding community for our society, through our commitment to the transformative power of a scientific approach.
- To produce graduates having attributes essential for a leader in the industry and academic institution such as independence of thought environmental social responsibilities and strong interdisciplinary foundation build-up.
- To have a positive social impact by translating knowledge into solutions for locally relevant problems.
- Offer a broad and balanced academic program and emphasize high-quality creative instruction at the undergraduate and graduate levels.
- Achieve leadership in each discipline, strengthening studies, and discover new fields of learning.

The Government College University Sahiwal Sub Campus is one of the best institutes in the Sahiwal Division who is offering higher educational facilities to the community of surrounding ruler areas. It pertains to develop plans in terms of education

Introduction

The sub-campus of Government College University, Faisalabad at Sammundri has been included in MTDf (2021-24) and reflected in ADP 2021-22 and presently under construction. This newly established sub-campus will provide opportunities of seeking quality education at affordable cost to the students of Sammundri and adjoining towns. The scheme has been approved in DDSC meeting held at Higher Education Department Government of Punjab.

The PC-I amounting to Rs. 341.578 million has been approved.
